Instagram Reels for business marketing by sharing short video content to convey their branding and advertising messages on the Explore page as well as with followers to gain massive traction. As it rolled out to the majority of users in August 2020, this feature is being made available across 50 countries including the U.S., making it an impeccable platform to interact with audiences and fuel your branding endeavors. The timing is also fortuitous given TikTok's uncertain future in the U.S. as the Trump administration weighs either banning the Chinese-owned app entirely or forcing it to sell off its U.S. operations. To put this further into perspective, let's take a look at a few stats. The average time spent on Instagram increased by 3.5% since the launch of Instagram Reels. For example, some published data reflects recent development as follows: Two thirds of the NBA's franchises have posted at least one Reel since the feature launched in the United States. The Los Angeles Lakers top the league in engagement on Instagram Reels with more than 385,000 engagements and more than 4.1M plays on a single video. Louis Vuitton averages 7M views on each Reel and are still increasing. Sephora France gets more than 453K views on each Reel and more.
