Prompting is THINKING, ASKING, and REFINING by Irwan Hartanto. In a world flooded with information and driven by automation, one skill rises above all others: the ability to prompt. Prompting is no longer about asking AI for answers; it's about asking the right questions with clarity, strategy, and depth. In this transformative book, technologist and author Irwan Hartanto reveals how prompting is the new language of intelligence. From startups to classrooms, boardrooms to journals, this book explores how the act of prompting becomes a personal and professional superpower. Through real-world examples, powerful mental models, and multi-domain workflows using ChatGPT, Gemini, Deepseek, Qwen, and Perplexity, you'll learn how to think like a prompt-native professional. Why refining questions matters more than rushing for answers. How to prompt across business, writing, learning, and self-growth. What it means to build a life through dialogue, not monologue. This is not just a book about AI; it's a book about you and how you think. Because in the age of artificial intelligence, your prompts reveal your mind, and your ability to ask defines your ability to lead.
