Cancer In Context A Practical Guide To Supportive Care:

Cancer in Context James Brennan, Clare Moynihan, 2004 This book offers healthcare professionals academics and anyone affected by cancer a fresh and original approach to the supportive care of people with cancer It looks at the underlying reasons why cancer so often leads to high levels of distress and more importantly it suggests many practical ways distress can be minimised and prevented The actual experiences of cancer patients as recorded in their personal diaries are combined with theory research and practical clinical advice In each of its seven chapters Cancer in Context takes a different perspective towards supportive care in cancer It begins by considering how people in general manage and adjust to massive changes in their lives and in particular how they react to the threat of cancer It goes on to examine the lived experience of people with cancer as they negotiate the many changes and challenges that follow their diagnosis Of course cancer doesn't only affect the person who has the disease it also impacts on families partners and carers One chapter explores these and other issues such as sexual difficulties the needs of older people single people and gay and lesbian couples Chapter 4 shows that the social and cultural context of a person's life is critical to understanding their resources the way they are treated and the responses they make to serious illness However it is in the clinical context that professionals have an opportunity to minimise disruption to their patients quality of life as they endure the notorious demands of oncology treatments The book offers practical clinical advice on psychosocial aspects of conventional cancer treatments common treatment difficulties cancer rehabilitation and palliative care Chapter 6 provides a summary of the burgeoning area of information and communication skills within healthcare and finally the book ends by considering how doctors nurses radiographers and other healthcare professionals can maintain their supportive care in light of such high levels of stress and burnout among these staff groups

Community Palliative Care Sandra Aitken, 2009-04-13 Community Palliative Care examines the complex support and information needs of seriously ill patients and their families and will encompass not only the patient's journey but that of the family during the illness trajectory and into the bereavement period The text is divided into three sections professionals patients and carers The first section discusses the roles and contributions made by other members of the primary health care team and examines the role of the nurse Section two explores the psychosocial support needed by patients receiving palliative care and looks at the community palliative care clinical nurse specialists role in relation to psychological as well as practical problems surrounding a life threatening illness The final section will look at the needs of the family and carers and the support that the community palliative care clinical nurse specialist can offer to the individuals Included in this segment will be the complex issues faced by carers in relation to the changing roles within the family children death and bereavement

Watson's Clinical Nursing and Related Sciences E-Book Mike Walsh, Alison Crumbie, 2007-07-25 Previous editions of this popular textbook have provided nursing students with the comprehensive guide they need to a wide range of clinical nursing issues This edition continues to provide this comprehensive support but also reflects the changing context of
