

Curriculum Improvement Cycle (CIC)

Work has started to review the Scottish Curriculum. This review is called the Curriculum Improvement Cycle (CIC). This review will ensure that the Scottish Curriculum remains up to date and continues to prepare children and young people for a future world.

The CIC came about after the recommendations from the 2021 Organisation for Economic Cooperation and Development (OECD) Review of Scottish Education. Many strengths of Curriculum for Excellence (CfE) were noted in this review. The OECD review also highlighted 12 suggestions that would enable the curriculum to continue to be relevant into the future. One of the recommendations is to establish a system of regular curriculum review within a planned time frame.

The Technical Framework

As part of the review, the 'technical framework,' which includes Experiences and Outcomes, Benchmarks and approaches to assessment and moderation processes, will be reviewed to ensure it is still relevant for Scotland's learners and is fit for purpose.

Proposed Timeline

December 2024 to January 2025
Numeracy and Mathematics will be the first curricular area to be reviewed. An updated curriculum framework will be published in draft in December 2024, with schools and practitioners testing it from January 2025. The high level framework for learning and achievement will follow the proposed approach for learning achievement outcomes and will be in place by June 2025.

January to April 2025
From January to April 2025, information about the progress of publication efforts will be shared through national curriculum centres that in turn will update schools and colleges on a monthly basis.

Also note, it is important to remember that the Curriculum Improvement Cycle (CIC) will ensure and update curriculum for Excellence (CfE). In response to the review CfE, the Curriculum Improvement Cycle is set working with a broad range of people.
