Julio Vincent Gambuto, 2024-07-30 *Atomic Habits* meets *The Subtle Art of Not Giving a F ck* in this life changing guide to freeing yourself from the behaviors values and relationships that keep you from being happy When the pandemic brought the world to a standstill author Julio Vincent Gambuto realized a powerful truth in the pre pandemic world Americans were exhausted lonely unhappy wildly overworked and overbooked drowning in sea of constantly being on the go and needing to buy more more more But when that pressure disappeared people rediscovered what was important to them They quit jobs that made them unhappy and moved their families to suburbs Simple things like outdoor walks replaced gym memberships home cooking and backyard gardens replaced takeout less commuting meant more time for family and creative projects and for perhaps the first time in a long time people were being honest Honest about what they wanted what they believed in

Honest about the problems they were facing within their families friend groups workplaces towns and society overall That honesty he noticed had the potential to make the ground shift It created a capacity for change But he also knew that it likely wouldn't last because the most powerful forces running our world would not allow it to They wanted control over our clicks our conversations our dollars our work our votes our lives The only way that we could beat those systems would be to resist the calls to keep moving and to go back to normal In order to change we had to unsubscribe Now in Please Unsubscribe Thanks Gambuto gives us a radical blueprint for the ways we can take a deep breath renew and commit to a life that we really want individually and collectively from unsubscribing to emails and automated subscriptions to reevaluating the presence of people and ideas and habits that no longer serve us or make us happy Infused with the practical advice in James Clear's Atomic Habits and the humor of Sarah Knight's The Life Changing Magic of Not Giving a F k this groundbreaking guide helps us focus on where we find joy in our lives and encourages us to toss out what doesn't bring us joy in this modern world

Surveillance Education Nolan

Higdon, Allison Butler, 2024-08-02 Surveillance Education explores the pervasive use of digital surveillance technologies in schools and assesses its pernicious effects on students Recognizing that the use of digital technologies will persist the authors instead offer practical ways to ameliorate their impact In our era of surveillance capitalism digital media technologies are ever more intertwined into the educational process Schools are presented with digital technologies as tools of convenience for gathering and grading student work as tools of support to foster a more equitable learning environment and as tools of safety for predicting or preventing violence or monitoring mental emotional and physical health Despite a dearth of evidence to confirm their effectiveness digital data collection and tracking is often presented as a way to improve educational outcomes and safety This book challenges these fallacious assumptions and argues that the use of digital media technologies has caused great harm to students by subjecting them to oppressive levels of surveillance impinging upon their right to privacy and harvesting their personal data on behalf of Big Tech In doing so the authors draw upon interviews from K 12 and higher education students teachers and staff civil rights and technology lawyers and educational technological programmers The authors also provide practical guidance for teachers administrators students and their families seeking to identify and combat surveillance in education This urgent eye opening book will be of interest to students and educators with interests in critical media literacy and pedagogy and the sociology of technology and education
