You'll learn how to put artificial intelligence to work for you and your company in a wide variety of situations, from creating office assistants to managing projects and marketing your products. Inside the book: How to prompt AI platforms like ChatGPT and Copilot while avoiding hallucinations and other bugs; Strategies for adding artificial intelligence tools to your company's existing workflows to improve efficiency and generate new opportunities; Techniques to improve your programming capabilities with AI or create new AI-powered tools. Perfect for professionals curious about the potential and pitfalls associated with generative artificial intelligence. **Artificial Intelligence All in One For Dummies** shows you exactly how AI works and how you can apply it in your own professional and personal life. *We Can Teach That* Ewa Dziedzic-Elliott, 2024-11-28. Information literacy is a complex subject that finally arrived at the doorstep of school libraries. For decades, academic researchers have been trying to capture the essence of information literacy: its educational, cognitive, and civic value. The collection of book chapters offered in *We Can Teach That* is a handbook that can be used as an inspiration for teaching various types of literacy: visual, digital, multicultural, health, and more. The book asks important questions: When do we start teaching information literacy? How do we teach it? How does it affect our students at their education level? How does it prepare them for their post-high school adult life? Does it impact their transition to college or career? Dziedzic-Elliott and her collaborators provide a range of best practices and concepts that inspire thinking about teaching information literacy at all levels. Although written with school librarians in mind, the book can be easily adapted by teachers, school administrators, and even public librarians who are looking to incorporate information literacy elements in their daily practices. The book challenges the reader to rethink what they know about digital or tech literacy, breaks some stereotypical concepts about multicultural literacy, and highlights the importance of literacies even in adulthood.

Artificial intelligence with a human face. How neural networks build emotional connections with customers Ekaterina Fomicheva, 2025-05-01. This book presents a study of the role of artificial intelligence in creating emotional connections between brands and customers. It explores the principles of using neural networks to analyze emotions and integrate information into marketing strategies. Special attention is given to the boundaries of data usage in creating personalized offers. The importance of integrating artificial intelligence into strategic business processes is emphasized to ensure sustainable growth and competitiveness.
