Algebra for Berkeley College Students R. David Gustafson, 2004 Squaring Up Mary Carolyn King, 2025-12-10 Despite three decades of progress American women's incomes still average just over half of those of men This income gap is both a cause and a symptom of gender inequity The gap means that women are only half as able as men to support themselves and their families are too often mired in poverty and have less power than men do in their families communities and governments In this book economists present readable informative and compelling assessments of several policy strategies capable of bringing down the barriers to economic equality for women and men More specifically Squaring Up discusses the potential of ten different strategies to raise women's incomes These strategies fall into three categories those intended to reduce the negative impact of childrearing on women's incomes those designed to raise the wages in the jobs where most working women are concentrated and those focused on moving women into better paying positions The chapters on each policy strategy represent both a state of the art assessment of the potential of each strategy to raise American women's incomes and an introduction to the topic that includes information on current programs and directs the reader to the most important literature on the topic The policies considered constitute a pluralist agenda for women one that can be supported by people across the American political spectrum as it calls for support for stay at home mothers poor women women in stereotypical women's jobs women in non traditional employment high powered women executives and older women This book features contributions from many of the best economists working on issues of relevance to women today including Nancy Folbre recent recipient of a MacArthur genius fellowship and Barbara Bergmann previous president of the International Association for Feminist Economics and author of *The Economic Emergence of Women* Squaring Up is designed for courses in a wide range of disciplines including public policy political science economics sociology and women's studies It is also intended for policy makers opinion leaders activists and the general public interested in women's issues The Athenaeum James Silk Buckingham, John Sterling, Frederick Denison Maurice, Henry Stebbing, Charles Wentworth Dilke, Thomas Kibble Hervey, William Hepworth Dixon, Norman Maccoll, Vernon Horace Rendall, John Middleton Murry, 1886 **The Athenaeum**, 1913 **The Grito Del Sol Collection**, 1984 *Berkeley Engineer*, 2012 **Journal of Education**, 1891 **Weekly Philatelic Gossip**, 1925 **Johns Hopkins Half-century Directory** Johns Hopkins University, 1926 The Negro Trail Blazers of California Delilah Leontium Beasley, 1919 Stories of real African Americans in California from the earliest explorers to the dawn of the twentieth century *The Development of Doctoral Students: Phases of Challenge and Support* Susan K.
