*El-Hi Textbooks and Serials in Print*, 2003      **American Book Publishing Record**, 1999      *El-Hi Textbooks & Serials in Print, 2003*, 2003      **Law and the Web of Society** Cynthia L. Cates, Wayne V. McIntosh, 2001-07-31 From birth certificates and marriage licenses to food safety regulations and speed limits law shapes nearly every moment of our lives Ubiquitous and ambivalent the law is charged with both maintaining social order and protecting individual freedom In this book Cynthia L Cates and Wayne V McIntosh explore this ambivalence and document the complex relationship between the web of law and everyday life They consider the forms and functions of the law charting the American legal structure and judicial process and explaining key legal roles They then detail how it influences the development of individual identity and human relationships at every stage of our life cycle from conception to the grave The authors also use the word web in its technological sense providing a section at the end of each chapter that directs students to relevant and useful Internet sites Written for upper level undergraduate and graduate students in law and society courses *Law and the Web of Society* contains original research that also makes it useful to scholars In daring to ask difficult questions such as When does life begin and Where does law begin this book will stimulate thought and debate even as it presents practical answers      **El-Hi Textbooks & Serials in Print, 2005**, 2005      *International Handbook of AI Law* Matthias Artzt, Oliver Belitz, Simon Hembt, Nils Löfling, 2024-12-03 In recent years the field of Artificial Intelligence AI has seen remarkable advances revolutionizing how we live work and interact with technology As AI systems grow increasingly sophisticated and autonomous they raise new and challenging legal questions particularly regarding AI specific risks associated with automated systems This indispensable handbook written in clear language by international experts from all over the world sheds light on the complex relationship between AI and the law covering both existing laws and emerging AI specific legal regulations Beginning with a comprehensive and insightful technical analysis of how AI works subsequent chapters cover a wide array of legal fields relevant to AI technology focusing on the legal framework in the EU including the following topics the EU AI Act AI Specific Liability and Product Safety Data Protection Data Law Intellectual Property Contracting Antitrust Criminal Law Cybersecurity Employment Law and Legal Tech The book concludes with country reports on the legal and regulatory environment in the United Kingdom the United States China and Japan contrasting them with the EU legal framework Each chapter offers practical advice for implementing legal principles making the handbook a valuable resource for real world applications It is an essential guide for practitioners policymakers academics and others seeking a deep understanding of the complex legal challenges posed by AI use The handbook aids in responsible and trustworthy AI development and use by guiding decision making reducing risks and protecting the rights and well being of individuals and society      *Distributive Institutions* Shouwen Zhang, 2020-12-29 The crisis of distribution is one of the longest standing and most complicated issues facing human society Imbued with social political historic and cultural elements it varies significantly across different

countries as a result of all these factors As an emerging economy which transferred from a planned to a market economy China has experienced large distribution gaps since it implemented the Reform and Opening up Policy in the early 1980s requiring stronger economic law to mitigate and regulate the crisis of distribution In this second volume the author analyses crises of distribution from a theoretical perspective and proposes law and policy solutions Believing that such crises are a collective result of systematic limitations the author proposes a theoretical framework of system distribution development in order to resolve distribution problems and promote economic development He argues that a crisis of distribution cannot be avoided without coordinated development of economic law and relevant constitutional civil and commercial law systems In addition it is necessary to differentiate the territories industries enterprises and individuals that constitute such diverse systems The book should be of keen interest to researchers and students of law economics and political science
