Conference on Art Criticism and Art Education ,1970 *Culture and Values + Mindtap Arts & Humanities, 1 Term - 6 Months Access Card ,* African Cultural Values Raphael Chijoke Njoku,2013-10-23 Although numerous studies have been made of the Western educated political elite of colonial Nigeria in particular and of Africa in general very few have approached the study from a perspective that analyzes the impacts of indigenous institutions on the lives values and ideas of these individuals This book is about the diachronic impact of indigenous and Western agencies in the upbringing socialization and careers of the colonial Igbo political elite of southeastern Nigeria The thesis argues that the new elite manifests the continuity of traditions and culture and therefore their leadership values and the impact they brought on African society cannot be fully understood without looking closely at their lived experiences in those indigenous institutions where African life coheres The key has been to explore this question at the level of biography set in the context of a carefully reconstructed social history of the particular local communities surrounding the elite figures It starts from an understanding of their family and village life and moves forward striving to balance the familiar account of these individuals in public life with an account of the ongoing influences from family kinship age grades marriage and gender roles secret societies the church local leaders and others The result is not only a model of a new approach to African elite history but also an argument about how to understand these emergent leaders and their peers as individuals who shared with their fellow Africans a dynamic and complex set of values that evolved over the six decades of colonialism **Encyclopedia of Violence, Peace, and Conflict** ,1999-08-16 The Encyclopedia of Violence Peace and Conflict a three volume set written by more than 200 eminent contributors from around the world takes advantage of increasing worldwide awareness in the public private commercial and academic sectors about manifestations of violence in all segments of society While the contributors do not use these volumes to make specific arguments they do describe and clarify the developments in thought that have led to current theories about and positions on violence and peace Our reviewers consistently note that while many in depth studies of war peace and aggression exist the attendant specialization keeps scholars from learning about related fields No publication competing with the Encyclopedia of Violence Peace and Conflict can satisfy their need for a vast introductory work to such a diverse and socially important field This major work includes more than 190 multidisciplinary articles with over 1 000 cross references and more than 2 000 bibliography entries for further reading which are arranged alphabetically for easy access More than 190 multidisciplinary articles with over 1 000 cross references Article outline and glossary of key terms begin each article Entries arranged alphabetically for easy access Three volume set with subject index of over 750 entries Articles written by more than 200 eminent contributors from around the world **Culture & Values , Digital Technology and the Practices of Humanities Research** Jennifer Edmond,2020-01-30 How does technology impact research practices in the humanities How does digitisation shape scholarly identity How do we negotiate trust in the digital realm What is scholarship what forms can it take and how does it acquire authority This diverse set of essays demonstrate the importance of asking

such questions bringing together established and emerging scholars from a variety of disciplines at a time when data is increasingly being incorporated as an input and output in humanities sources and publications Major themes addressed include the changing nature of scholarly publishing in a digital age the different kinds of gate keepers for scholarship and the difficulties of effectively assessing the impact of digital resources The essays bring theoretical and practical perspectives into conversation offering readers not only comprehensive examinations of past and present discourse on digital scholarship but tightly focused case studies This timely volume illuminates the different forces underlying the shifting practices in humanities research today with especial focus on how humanists take ownership of and are empowered by technology in unexpected ways Digital Technology and the Practices of Humanities Research is essential reading for scholars students and general readers interested in the changing culture of research practices in the humanities and in the future of the digital humanities on the whole
