*How to Think about Data Science* Diego Miranda-Saavedra, 2022-12-23 This book is a timely and critical introduction for those interested in what data science is and isn't and how it should be applied The language is conversational and the content is accessible for readers without a quantitative or computational background but at the same time it is also a practical overview of the field for the more technical readers The overarching goal is to demystify the field and teach the reader how to develop an analytical mindset instead of following recipes The book takes the scientist's approach of focusing on asking the right question at every step as this is the single most important factor contributing to the success of a data science project Upon finishing this book the reader should be asking more questions than I have answered This book is therefore a practising scientist's approach to explaining data science through questions and examples

*The Threshold* Nick Chatrath, 2023-02-28 Accomplished leadership consultant Nick Chatrath offers a revolutionary framework for how leaders in all kinds of organizations can adapt to the new age of technology like ChatGPT the Age of AI by leaning into the qualities and skills that make us uniquely human For readers of Yuval Noah Harari's *21 Lessons for the 21st Century* and Max Tegmark's *Life 3.0* The Threshold is a bold new way to think about human emotionally intelligent leadership right now as we stand at the threshold of AI superintelligence We are living in a new age the Age of AI With developments emerging every day Artificial Intelligence will soon surpass most human competencies and as a result drastically transform technology's role in our day to day world The solution for organizational leaders is not to become more like computers In order for our organizations to survive as we stand at the threshold of a new era we must tap into the qualities that make us uniquely human In the face of increasingly intelligent technology old models of leadership are becoming obsolete In The Threshold Leading in the Age of AI accomplished leadership consultant Nick Chatrath interweaves an analysis of antiquated leadership models the ones that leave AI Era organizations exposed and ineffective with colleagues frustrated unmotivated and burnt out with his newly developed strategies for more effective threshold leadership methods Supported with anecdotes research and a practical toolkit The Threshold demonstrates that adaptive effective organizations can be built with human emotional

intelligence cultivating stillness nurturing independent thinking finding rhythms of rest and performance and raising leadership consciousness With a basis in the ideas and practices that have shaped our organizations in the past The Threshold illuminates how accessing advanced stages of human development can be both competitive and harmonious with AI's growing insinuation into our working world
