How To Use Ai Transcription Tool For Teens:

Youth, Faith, and Artificial Intelligence Zaremohzzabieh, Zeinab, Abdullah, Rusli, Al-Issa, Riyadh Salim, Ahrari, Seyedali, 2025-08-29 As AI continues to reshape society its intersection with the younger generation and faith has presented opportunities and ethical questions For the youth navigating their beliefs and identity has become increasingly difficult in this modern world AI can serve as a tool and a hindrance to spiritual exploration and a challenge to traditional values Faith communities in turn are grappling with how to engage youth meaningfully in an era shaped by algorithms virtual interactions and machine learning Youth Faith and Artificial Intelligence explores the rapid advancement of AI and its impact on the way we interact with the youth This book examines how theological perspectives can help youth navigate the complexities of an AI driven society Covering topics such as AI youth and engagement this book is an excellent resource for sociologists researchers academicians educators and more Participatory Approaches in Child and Family Social Work Clive Diaz, Sammi Fitz-Symonds, Tim Fisher, 2026-01-13 Rooted in original empirical research this edited volume argues for collaborative relationship based practice It explores participatory methods innovative advocacy strategies and emerging trends including digital platforms and post COVID 19 developments *Youth Activism in Environmental Politics, 2nd Edition* Matt Henn, Sarah Pickard, 2023-02-02 Recently important new research has emerged to explain the large intergenerational cleavages in values and political preferences in many contemporary societies In most established democracies and many newer democracies young people are more likely to possess progressive values and are much more cosmopolitan in their outlook socially liberal accepting of cultural diversity and outward looking than older generations They tend to reject mainstream electoral politics and authoritarian nationalist forms of populism in favour of alternative progressive political parties and movements Indeed there is burgeoning evidence of a global tendency towards young people's support for and participation in new styles of non institutionalised political action that seem to better fit their life styles and to permit the actualisation of their political aspirations Although there is a considerable body of existing literature that examines the rise of such values and political participation preferences there is little work that focuses on the relationship with the prioritisation of environmental issues and environmental activism as evidenced in the September 2019 global climate strikes The goal of the current Research Topic is to explore the contemporary realities and patterns of youth participation in environmental politics in different societies As such we welcome manuscripts of original research and conceptualization that address the different practices of youth as they seek to effect environmental change and also their motivations for doing so Contributions are welcome from scholars youth practitioners and activists operating in a range of different settings and using diverse disciplinary and multidisciplinary and interdisciplinary perspectives **My Therapist Is an AI - Can a Machine Understand the Human Soul?** Leopoldo Ceballos del Castillo, 2025-07-23 Today between 500 and 700 million people around the world use artificial intelligence the so called chatbots to talk about their emotions seek comfort or resolve

personal conflicts In numerous documented cases these interactions have led to psychotic episodes severe crises or decisions driven by misleading advice hallucinations or fabricated information generated by the AI itself Leopoldo Ceballos drawing on his dual background as a computer engineer and psychologist offers a bold and clarifying perspective to understand why millions of people prefer to talk to a machine instead of another human being and what we can do as a society to address this trend without giving up on our humanity The result is a critical and practical guide for using AI responsibly recognizing its real risks exploring accessible human alternatives and applying prompt engineering principles to minimize errors and misunderstandings when no other option is available A book for those brave enough to look beyond the glow of technology and ask themselves Are we truly ready to talk about our emotions with an artificial intelligence

Treatment Program Evaluation Allyson Kelley, 2022-06-01 This invaluable text provides a rigorous guide to the assessment and evaluation of treatment programs through a multi disciplinary holistic model of care It highlights issues of race social justice and health equity and offers real world guidance to effect community healing and transformation Written by a researcher and experienced evaluator the book begins by outlining the theories and research which frame our understanding of substance misuse and upon which treatment programs are based It then examines the principles which should underpin any evaluation before detailing the practical various steps required to conduct an evaluation from data collection to outcome measurement The book shows too through detailed and effective evaluation policy changes can be made and treatment programs improved Including practical examples of evaluation and assessment throughout and also assessing the numerous social systems which can support recovery the book builds to a four step public health model for establishing sustainable treatment programs In an era where substance misuse has reached epidemic proportions in the United States and beyond this book will be essential reading for anyone involved in public health policy and practice in this important area
