What would it look like for me and my school to be AI Ready? *AI for School Teachers* will help teachers and headteachers understand enough about AI to build a strategy for how it can be used in their school. Examining the needs of schools to ensure they are ready to leverage the power of AI and drawing examples from early years to high school students, this book outlines the educational implications and benefits that AI brings to school education in practical ways. It develops an understanding of what AI is and isn't and how we define and measure what we value and provides a framework which supports a step by step approach to developing an AI mindset focusing on ways to improve educational opportunities for students with evidence informed interventions.
