Becoming a Digital Nomad Chris Backe, 2018-04-06

Presenting the 2019 edition. Imagine living the lifestyle you want while making money and working anywhere in the world. Imagine enjoying the beaches in Thailand one day, then trying the best pizza in Italy the next. It sounds like a dream: travel anywhere you want, make money doing something you enjoy, and live life to the fullest. It's not a dream, though: a growing number of digital nomads are leaving the 9 to 5 life and choosing to take control of their life. What's a digital nomad? A person who travels at will, lives where they want, and does their work digitally. They have no cubicle and no dress code. Digital nomads are young, old, male, female, single, married, have children, and are from almost every country on this planet. If you want to become a digital nomad, nothing can stop you. *Becoming a Digital Nomad* offers a proven step-by-step guide to test and transition into the digital nomad lifestyle. It's one part travel guide and one part how-to. Steps build on each other in chronological order, and a dozen worksheets guide you with specific questions to answer. These are freely available to save and print offline or online, whatever works best for you.

Step 1: know yourself and what you want. Focuses on you, good reader. We have some work on doing understanding you, the person you see in the mirror.

Step 2: clarify your desires and acknowledge limitations. Does two important things in gearing you up for your journey.

Nomadus interruptus: just a test, please. Is an interim chapter dedicated to setting up a good test of the digital nomad lifestyle.

Step 3: making money. Puts together a list of the many ways digital nomads can make money, along with some notes on how to manage your money across borders.

Step 4: get affairs in order. Focuses on what needs to be done before leaving your country.

Step 5: gear up and slim down. Focuses on what to pack and how to deal with the rest of your stuff, depending on your choices from earlier steps.

Step 6: the big move and settling in. Counts you down from your last few days at your old place to your first few days at your new place.

Step 7: start enjoying your new life. Helps establish new habits, make new connections, and helps to make the lifestyle a sustainable one.

Step 8: going home or making a new home for yourself anywhere you choose to go. Learn from dozens of digital nomads, get how-to advice on every aspect of the transition, or learn how to test the lifestyle out before committing to it.

digital nomad is essentially a person who works for himself Many work at home mothers do this and are known as Full Time Gigs Others work as freelancers and do things a specific way like transcribing editing proofreading or programming However some digital nomads work for service companies and do things like web design web programming accounting creative writing or translation Those who work a digital nomad lifestyle do not work for a company or boss but instead work for themselves They set their own hours and follow their own rules It is difficult to be self employed in this society because you have to rely on the wills of others and your courage to set up your business However it is not impossible and there are different ways to be self employed which can provide you with more freedom and flexibility while still bringing in some money If you want to work at home then this is the technology which is enabling the change and it is allowing nomads to work from home Companies are recognising the potential of this new method of working and the first areas to embrace the new way of working are the legal ones However it is not just the legal firms and public sector which are looking to employment technology in order to cut costs Almost every type of industry is looking at using technology in order to lower costs and in this way increase profits For example restaurants are using recruitment technology in order to lower salaries and costs Until a few years ago when every restaurant had a fixed cost of hiring training and maintenance the vast majority of restaurants were able to pay 100% of their employees salaries This meant that it was possible to pay a manager less than a waiter and save money However with the inclusion of recruitment technology the cost of hiring employees is being cut by up to 50% This does not necessarily mean that the amount of profit is increased but employees are able to be assigned to different tasks meaning that they spend less time in front of customers thus increasing their profits Interested to know more Then Scroll up Click on Buy now with 1 Click and Get Your Copy Now *The Digital Nomad's Almanac* Dr. A.I.
