The Blogging Church Brian Bailey, 2011-01-07 The Blogging Church offers church leaders a field manual for using the social phenomenon of blogs to connect people and build communities in a whole new way Inside you will find the why what and how of blogging in the local church Filled with illustrative examples and practical advice the authors answer key questions learned on the frontlines of ministry Is blogging a tool or a toy What problems will blogging solve How does it benefit ministry How do I build a great blog and Who am I blogging for The Blogging Church is a handbook that will inspire and equip you to join the conversation The book includes contributions from five of the most popular bloggers in the world Robert Scoble Dave Winer Kathy Sierra Guy Kawasaki and Merlin Mann as well as interviews with blogging pastors such as Mark Driscoll Craig Groeschel Tony Morgan Perry Noble Greg Surratt Mark Batterson and many more

Research on Technology in English Education Carl A. Young, Sara Kajder, 2013-03-01 This book brings together the voices of leading English Education researchers who work to offer views into the changing landscape of English as a result of the use of digital media in classrooms out of school settings universities and other contexts in which readers and writers work But as in most useful texts the purpose is more nuanced and far reaching than simply offering a glimpse into where we currently find ourselves as a field In sum the collection brings together and interweaves what we are coming to know and understand about teaching English within a shifting digital landscape as well as the implications for teacher education and the discipline of English Education specifically The intended audience for this particular book is English educators doctoral candidates in the field of English education researchers and scholars in the field and English language arts teachers especially those interested in the impact digital technologies can have in our field

Season to Taste Caroline J. Smith, 2023-05-18 2024 Honorable Mention Recipient for the Emily Toth Award for the Best Single Work by One or More Authors from the Popular Culture Association Between 2000 and 2010 many contemporary US American women writers were returning to the private space of the kitchen writing about their experiences in that space and then publishing their memoirs for the larger public to consume *Season to Taste* Rewriting Kitchen Space in Contemporary Women's Food Memoirs explores women's food memoirs with recipes in order to consider the ways in which these women are rewriting this kitchen space and renegotiating their relationships with food Caroline J Smith begins the book with a historical overview of how the space of the kitchen and the expectations of women associated with it have shifted considerably since the 1960s *Better Homes and Gardens* as well as the discourse of the second wave feminist movement tended to depict the space as a place of imprisonment The contemporary popular writers examined in *Season to Taste* such as Ruth Reichl Kim Sun e Jocelyn Delk Adams Julie Powell and Molly Wizenberg respond to this characterization by instead presenting the kitchen as a place of transformation In their memoirs and recipes these authors reinterpret their roles within the private sphere of the home as well as the public sphere of the world of publishing whether print or digital publication The authors examined here explode the divide of private feminine and

public masculine in both content and form and complicate the genres of recipe writing diary writing and memoir These women writers through the act of preparing and consuming food encourage readers to reconsider the changing gender politics of the kitchen

ReCulturing: Design Your Company Culture to Connect with Strategy and Purpose for Lasting Success Melissa Daimler,2022-05-10 Leverage the power of systems thinking to clarify your purpose build your strategy and design your culture It s no secret that culture is key to attracting and engaging top talent But the vast majority of culture efforts fail as quickly as they started Why Because leaders are creating and communicating organizational values but they re failing to connect those values to their behaviors processes and practices of the organization ReCulturing is the playbook for building a business in which employees are clear on the why what and how they are working ReCulturing is not a one time change effort because culture is not something we ultimately have but rather something we do One of today s most renowned thought leaders and practitioners on the issue Melissa Daimler provides a modern definition of culture that is more of a verb than a noun Culture needs to be reviewed consistently just like strategy and purpose Focusing on these three areas leads to higher performance and engagement In the pages of this book you ll learn A powerful framework for designing and evolving organizational culture that goes beyond values to also include behaviors processes and practices How to embed behaviors into core people processes like hiring onboarding talent managing offboarding strategizing and decision making How to integrate why you work what you do and how you do it into an employee experience Why it s crucial to make sure a company s practices evolve as the company changes The book also features illuminating real life stories recounting what has and hasn t worked at some of today s largest and most influential companies Whether you re launching a startup running a global firm or overseeing the shift to a hybrid work setting ReCulturing provides everything you need to the kind of culture that drives long term business success American Journal of Public Health ,2008 *Cloud Computing. Actionable Architecture* Mathews George,2014-01-23 Script from the year 2011 in the subject Computer Science Technical Computer Science grade 2 0 language English abstract This paper will demonstrate a pragmatic methodology used in conjunction with UML unified modeling language BPMN business process modeling notation along with engineering principles for describing an actionable architecture for cloud computing in the real world The fundamental paradigm of cloud computing whether it is for private or public usage revolves around the provisioning of services for everyone through rich resources that can be synergized through

Internet based protocols The true definition of Cloud Computing is according to the author all about the practicalities of outsourcing all aspects of using computing resources to some form of external agency This means that the assumption for any cloud computing usage is the fact that the agency has a powerful resource base hardware software infrastructure platforms power supply backups failover mechanisms as well as management skills Therefore all users of the cloud computing services provided by the agency can work in a well defined demand supply mode with an insurmountable base of possible fault tolerant mechanisms to support best possible user experiences The user will have the unique experience of not being worried about where his her work is being done because cloud computing as defined above will enable him her to work in a virtualized environment but with the feeling of being close to the resources However the apparent ease available through cloud computing will raise problems associated with diverse types of risks Hence it is imperative to define new architectural blueprints as well as the associated business processes around them so as to provide measurable metrics that will allay the fears of any user The architectural blueprint is not just meant to be a lot of diagrams and documents but they are to be modeled as actionable artifacts These actionable artifacts will allow for operational excellence that covers all types of functional as well as non functional requirements that any user expects The MDA model driven architecture approach coupled with BPM business process modeling and engineering principles as posited in this paper will allow for management of distributed communication scheduling security enhancements and rights as well as many other aspects that will make the user experience enjoyable and successful *Gardening Illustrated* ,1902 *The Digital Writing Workshop* Troy Hicks,2009 Where others have talked about new technologies and how they change writing Troy Hicks shows how to use new technologies to enhance writing instruction Chapters are organized around the familiar principles of the writing workshop student choice active revision craft publication beyond the classroom and assessment of product and process You ll learn to expand and improve your teaching by smartly incorporating new technologies like wikis blogs and other forms of multimedia Throughout you ll find reference to resources readily available to you and your class online *Cooperative Living* ,2006
