Ranis, 2014-06-05 It is widely acknowledged that youth unemployment is one of the most critical challenges facing countries in Sub Saharan Africa This volume brings together an eminent group of international scholars to analyse the extent and complex nature of this joblessness and offer a set of evidence based policy choices that could contribute to solving the problem in the short and long run Part I reviews the existing literature on youth unemployment and underemployment in Sub Saharan Africa from microeconomic and macroeconomic perspectives while Part II goes on to present detailed country studies of Ethiopia Ghana Kenya and South Africa These studies offer a deep understanding of the situation on the ground and consider country specific solutions Throughout the book it is argued that the standard ILO definition of unemployment is too narrow to correctly portray employment situations in Sub Saharan Africa Several alternative measures of unemployment are presented which show that joblessness is far more pervasive than commonly assumed in the literature This volume will be of interest to academics and policy makers involved in African development **Effective Technology for Gender**

Thurlow, 2015-04-10 The much heralded growth and transformation of many economies in sub Saharan Africa over the last decade continues to receive prominent attention in academic scholarship and among policy practitioners An apparent feature about this transformation however is that Africa s youth appear to have been left out This book critically examines the extent and consequences of the marginalization of African youth It questions conventional wisdoms about data trends aspirational goals and common policy interventions surrounding Africa s youth that have been variously propagated in both the

development studies literature and in mainstream donor policy reports The book explores macro trends from both a temporal and cross regional perspective in order to highlight what is distinct about contemporary African youth and whether their prospects and behaviours do actually vary from their counterparts in other regions of the world or from previous generations of African youth Such studies include cross country analyses of youth employment patterns and modes of political participation in depth examination of the behaviours and aspirations of the urban youth and critical reflections on the impact of rural employment initiatives vocational education and learnership programmes The incorporation of multiple methods and disciplines as well as its attention to policy issues ensures that the book will be of great interest to graduate students researchers and professional researchers whose work lies at the intersection of African area studies and development studies as well as those focused on development economics political science and public policy and administration Resources in Education ,1986 **Datamation** ,1975-12 Social and Economic Effects of Community Wireless Networks and Infrastructures Abdelaal, Abdelnasser,2013-02-28 It is surprising to think that in today s rapidly evolving world of technology over half of the globe still does not have access to high speed internet Creating community wireless networks has in the past been a way to provide remote communities with internet and network access Social and Economic Effects of Community Wireless Networks and Infrastructures highlights the successes of community wireless networks but also boldly addresses the potential risk factors and broader socioeconomic concerns This publication s exploration of previous successes and failures various designs and potential challenges with CWNs makes it a valuable resource for researchers practitioners vendors and activists Voice of Youth Advocates ,1984 **Data Systems** ,1975 **The Indian Journal of Labour Economics** ,2005 Poverty and Education in Australia Australia.
