**Programming Visual Basic 2005** Jesse

Liberty, 2005-09-16 This newest programming guide by bestselling author Jesse Liberty isn't your typical Visual Basic book. It's not a primer on the language and it won't dull your brain with arguments hyping .NET either. Its goal rather is to make you immediately productive creating Windows and Web applications using Visual Basic and its associated tools. Written for experienced Visual Basic programmers from either a VB6 or VB .NET background, the book shows how Visual Basic 2005 can be used to rapidly build modern web applications and new Smart Client applications which combine the power of individual computers with network data resources to deliver a rich interactive experience. You'll also learn the details of building robust object-oriented applications and a host of especially dangerous pitfalls to avoid when programming with Visual Basic 2005.
