From the former Governor of the Bank of Canada a far seeing guide to the powerful economic forces that will shape the decades ahead The economic ground is shifting beneath our feet The world is becoming more volatile and people are understandably worried about their financial futures In this urgent and accessible guide to the crises and opportunities that lie ahead economist and former Governor of the Bank of Canada Stephen Poloz maps out the powerful tectonic forces that are shaping our future and the ideas that will allow us to master them These forces include an aging workforce mounting debt and rising income inequality Technological advances too are adding to the pressure putting people out of work and climate change is forcing a transition to a lower carbon economy It is no surprise that people are feeling uncertain The implications of these tectonic tensions will cascade throughout every dimension of our lives the job market the housing market the investment climate as well as government and central bank policy and the role of the corporation within society The pandemic has added momentum to many of them Poloz skillfully argues that past crises from the Victorian Depression in the late 1800s to the more recent downturn in 2008 give a hint of what is in store for us in the decades ahead Unlike the purely destructive power of earthquakes the upheaval that is sure to come in the decades ahead will offer unexpected opportunities for renewal and growth Filled with takeaways for employers investors and policymakers as well as families discussing jobs and mortgage renewals around the kitchen table *The Next Age of Uncertainty* is an indispensable guide for those navigating the fault lines of the risky world ahead [Young Workers in the Metal Trades](#) International Labour Organisation.
