Conscious Consumption provides parents with the tools to help their kids make thoughtful, responsible choices when it comes to food, clothes, and entertainment. This book explores how to introduce children to the concepts of sustainability, fair trade, and the environmental impact of consumption. From understanding where food comes from to choosing brands that support ethical practices, this book offers simple, age-appropriate ways to help children become mindful consumers. Through engaging discussions, fun activities, and family-friendly ideas, Conscious Consumption helps parents instill values of responsibility, empathy, and environmental awareness. You'll learn how to encourage your children to make choices that align with their values, helping them understand the impact of their decisions on the planet and the people who live on it. This book empowers families to adopt conscious consumption habits that contribute to a more sustainable, ethical world. **Postfeminism, Postrace and Digital Politics in Asian American Food Blogs** Tisha DeJmanee, 2022-12-26 This book examines how Asian American women bloggers challenge dominant race and gender discourses through the practice of food blogging. Asian American food blogs, which situate recipes and food photography within the personal narratives and domestic spaces of Asian American women, offer unique insights into the ways that hegemonic race and gender discourses are negotiated in quotidian life. The genre's focus on food provides a particularly rich backdrop for this study as it necessarily implicates family histories, gendered labour, domestic spaces, and the power dynamics of consumption. These intimate digital texts therefore provide unique insights into the ways that postfeminist and postrace discourses are encountered in the individual's mundane experiences. The author engages a critical cultural analysis of food blogs, narratives, images, communities, and platforms, expressing how post-race and feminism discourses are constrained by the commercial logics of this digital culture. The author argues that while Asian American food blogs rarely present a sustained challenge to hegemonic identity representation, the processes of reproduction and rupture that define this blogosphere consistently reveal the collective desire to push back against the limits of post-identities. This is a unique and fascinating study which is ideal reading for students and scholars of gender studies, media studies, cultural studies, and
