## Early Solent Steamers:

The Impact of Technological Change John Armstrong, David M. Williams, 2017-10-18 This book presents an in depth study of the impact of the steamship on Britain during its first forty years roughly between 1810 and 1850 It relates the early steamship to several industrial themes including diffusion construction modernisation the role of government particularly the difficult attempt to align laissez faire politics with the greater need for public safety measures due to technological advance business and finance plus public reaction and tourism The aim is to establish the significance of the steamship as a conduit of modernisation and societal change It consists of a foreword introduction and fourteen chapters devoted to specific themes structured to ensure each chapters build on the preceding chapter s progress Collectively they demonstrate that the development of both experience and enterprise with steam power both gained and refined during this period made the mid century expansion of steamship technology across Britain possible Ultimately it establishes that steamship services began to adapt to oceanic routes steam began to integrate into the world economy and the age of sail began to draw to a close

*The Channel Islands in Anglo-French Relations, 1689-1918* Colin Partridge, Andrew Lambert, Jean de Préneuf, 2024 Examines how the Channel Islands have been crucial to Britain s successful maritime superiority in the English Channel The Channel Islands have played a key role in both naval warfare and Anglo French diplomacy but this has not always been highlighted sufficiently even though Britain and France were at war for most of the period 1689 1815 This book considers a wide range of maritime subjects where the role of the Channel Islands has been significant such as intelligence gathering piracy and privateering and naval strategy and control of the Channel It also examines topics in relation to the Channel Islands specifically such as surveying and hydrography fortifications trade and Channel Islands societies It charts changes over time including the impact of technological changes from the wars of Louis XIV and William III through the many Anglo French wars of the eighteenth and early nineteenth centuries and includes planning for wars which were anticipated but avoided Throughout the issues are discussed from the perspectives of Britain France and the Channel Islands themselves equal weight being given to all three perspectives Andrew Lambert is Professor of War Studies at King s College London and one of Britain s foremost maritime and naval historians Colin Partridge is a former consultant to the States of Guernsey s Fortress Guernsey programme for the restoration and interpretation of Guernsey s fortifications Jean de Préneuf is a Senior Lecturer at the University of Lille and Head of the Research Teaching and Studies Unit at the Historical Branch of the French Ministry of Defence at Vincennes
