Easter In Ordinary Reflections On Human Experience And Knowledge Of God:

Easter in Ordinary Nicholas Lash, 1988 **The Cambridge Companion to Postmodern Theology** Kevin J.

Vanhoozer, 2003-07-31 Postmodernity allows for no absolutes and no essence Yet theology is concerned with the absolute the essential How then does theology sit within postmodernity Is postmodern theology possible or is such a concept a contradiction in terms Should theology bother about postmodernism or just get on with its own thing Can it Theologians have responded in many different ways to the challenges posed by theories of postmodernity In this introductory 2003 guide to a complex area editor Kevin J Vanhoozer addresses the issue head on in a lively survey of what talk about God might mean in a postmodern age and vice versa The book then offers examples of different types of contemporary theology in relation to postmodernity while the second part examines the key Christian doctrines in postmodern perspective Leading theologians contribute to this clear and informative Companion which no student of theology should be without Human Experience and the Triune God Bernhard Nausner, 2008 The overarching aim of this work is to develop a new account of the doctrine of the Trinity The author proposes that such an approach is overdue because contemporary trinitarian theology pays insufficient attention to the fact that theology as linguistic discourse is inescapably embedded in human experience Hence the critical analysis of existing trinitarian constructions Gunton LaCugna Moltmann is impressively sharp In response Nausner develops an interstitial methodology working between experience and revelation refusing both revelational and experiential positivisms In dialogue with contemporary novels the human sciences Frankl Weizsäcker philosophy Levinas and biblical narratives he offers an imaginative original and contemporary way of conceiving the doctrine of the Trinity in relation to human life **The Oxford Handbook of Mystical Theology** Edward Howells, Mark A. McIntosh, 2020-02-25 The Oxford Handbook of Mystical Theology provides a guide to the mystical element of Christianity as a theological phenomenon It differs not only from psychological and anthropological studies of mysticism but from other theological studies such as more practical or pastorally oriented works that examine the patterns of spiritual progress and offer counsel for deeper understanding and spiritual development It also differs from more explicitly historical studies tracing the theological and philosophical contexts and ideas of various key figures and schools as well as from literary studies of the linguistic tropes and expressive forms in mystical texts None of these perspectives is absent but the method here is more deliberately theological working from within the fundamental interests of Christian mystical writers to the articulation of those interests in distinctively theological forms in order finally to permit a critical theological engagement with them for today Divided into four parts the first section introduces the approach to mystical theology and offers a historical overview Part two attends to the concrete context of sources and practices of mystical theology Part three moves to the fundamental conceptualities of mystical thought The final section ends with the central contributions of mystical teaching to theology and metaphysics Students and scholars with a variety of interests will find different pathways through the Handbook *Partaking in Divine*

Nature Paul M. Collins, 2010-05-27 With strong application and relevance to contemporary ecclesiological questions this is an investigation of how understandings of theosis in the Christian Tradition have related to understandings of divine nature in terms of koinonia

Understanding Friendship Gary Chartier, 2022 Understanding Friendship illustrates friendship as an expression of Christian love that can enrich one's life and be socially, culturally and politically significant. The book examines what friendship is, how its distinctive moral status can be supported by multiple approaches to Christian ethics and its part in Christian spirituality

Faith and Social Capital After the Debt Crisis A. Dinham, 2012-04-24 This book explores what becomes of faiths when seen as social capital. In the grip of the current debt crisis where the social and capital seem increasingly unbalanced, this book examines whether faiths can help rebalance society through drawing communities together

Metaphysics of Mystery Marijn de Jong, 2020-02-06 How can we theologically reflect on universality in a world that increasingly focuses on particularities and differences? Marijn de Jong argues that the question of universality calls for a reconceptualized form of metaphysical theology which he finds in the work of Karl Rahner and Edward Schillebeeckx. Casting a new light on these theologians, de Jong demonstrates that their methods contain a dialectical interrelation of hermeneutics and metaphysics, an interrelation which seemingly has been lost in more recent hermeneutical theology. Rahner and Schillebeeckx carefully balance particularity and universality without falling prey to relativist or absolutist ways of reasoning. By analyzing fundamental themes such as experience and interpretation, nature and grace, faith and reason, and intelligibility and mystery, de Jong reveals the modest theological metaphysics that lies at the heart of their methods. This critical retrieval demonstrates the enduring relevance of these thinkers and opens up new avenues of thought for theologians that do not want to shy away from the difficult question of the universality of God

American Journal of Theology & Philosophy, 1994

A Spirituality of Everyday Faith Declan Marmion, 1998 Because spirituality is such a ubiquitous term today, any attempt to elucidate it more fully is only to be welcomed. Volume 23 in the LTPM series represents a significant contribution in this regard. Beginning with the apostle Paul, Declan Marmion shows how the meaning of the term spirituality changed over the centuries. He then offers a useful working definition of spirituality and explores the complicated relationship between spirituality, academic theology, and religious experience. In the main body of the book, Marmion focuses on the spiritual basis of Karl Rahner's theology. Exhibiting a comprehensive knowledge of the primary and secondary literature in this area, Marmion uses Rahner's notion of spirituality to treat such important themes as the nature of God, mystical experience, prayer, love of neighbor, and more

Human and Divine Gwen Griffith Dickson, 2000-11-30 In this introduction to the philosophical study of religion, Gwen Griffith Dickson attempts to fill an important gap by considering these questions squarely in the context of the world's many religions and philosophical traditions

Creation, Contingency and Divine Presence in the Theologies of Thomas F. Torrance and Eberhard Jüngel Roland Spjuth, 1995 The focus of this study is the doctrine of creation, an issue brought into the centre of attention by the modern ecological urgency but also challenged by

the postmodern rejection of analogy and meta narration From the stance of this modern debate the author analyses the doctrine of creation in the theologies of Thomas F Torrance and Eberhard Jungel Thus the work becomes both a penetrating examination of a crucial dogmatic issue and the first critical comparison between two main representatives of the theology influenced by Karl Barth Christology Anne M. Clifford, Anthony J.
