Radical Solutions for Digital Transformation in Latin American Universities Daniel Burgos, John William Branch, 2021-07-24. This book presents how Digital Transformation is a requirement to upgrade Latin American universities to a next level in management, lecturing, and learning processes and strategies. The book starts with a thorough introduction of the Latin American context, addressing the three main topics in the book: Digital Transformation, Higher Education, and Artificial Intelligence. Industry 4.0. They will be depicted by region with a clear distribution between Central America, Mexico, Comunidad Andina, Peru, Colombia, Chile, Ecuador, Bolivia, Mercosur, Argentina, Brasil, Paraguay, and Uruguay, and other countries. The book also shows how online learning is a key part of the transformation, with a clear focus on learning management systems, innovation, and learning analytics. Further, personalised services for every single profile at the university: students, lecturers, academic managers, are presented to guarantee inclusive education. Service aggregation for networked campuses. Following the book addresses strategy and overall services that concentrate on sustainability and revenue models integrated with a strategic planning. Finally, a set of chapters will show specific experiences and case studies of direct application of Artificial Intelligence and Technology 4.0, where the readers can learn from and transfer directly into their educational contexts.
