Disorder and Progress Paul J. Vanderwood, University of Nebraska Press, 1974 **NAFTA in Transition** Stephen J. Randall, Herman W. Konrad, 1995 This volume provides a comprehensive analysis of the economic social cultural and political dimensions of the evolving trilateral relationship among the three countries of North America Contributors address such topics as energy the environment trade labour the maquiladora industrial sector of Mexico the Mexican auto industry and Canada U S cultural relations While other publications have focused on U S issues this one emphasizes Canada and Mexico yet adds significantly to our understanding of the place of the United States in this evolving trilateral relationship

Liberalism as Utopia Timo H. Schaefer, 2017-08-07 Liberalism as Utopia challenges widespread perceptions about the weakness of Mexico's nineteenth century state Schaefer argues that after the War of Independence non elite Mexicans peasants day laborers artisans local merchants pioneered an egalitarian form of legal rule by serving in the town governments and civic militias that became the local faces of the state's coercive authority These institutions were effective because they embodied patriarchal norms of labor and care for the family that were premised on the legal equality of male adult citizens The book also examines the emergence of new illiberal norms that challenged and at the end of the century during the dictatorship of Porfirio Díaz overwhelmed the egalitarianism of the early republican period By comparing the legal cultures of agricultural estates mestizo towns and indigenous towns Liberalism as Utopia also proposes a new way of understanding the social foundations of liberal and authoritarian pathways to state formation in the nineteenth century world

Juan Soldado Paul J Vanderwood, 2004-11 Investigates the popular canonization of a saint in Tijuana asking what triggered the devotion and considering local national international geographical environmental cultural and psychological aspects of the event

The City of Mexico in the Age of Díaz Michael Johns, 2011-05-18 Mexico City assumed its current character around the turn of the twentieth century during the dictatorship of Porfirio Díaz 1876 1911 In those years wealthy Mexicans moved away from the Zócalo the city's traditional center to western suburbs where they sought to imitate European and American ways of life At the same time poorer Mexicans many of whom were peasants crowded into eastern suburbs that lacked such basic amenities as schools potable water and adequate sewerage These slums looked and felt more like rural villages than city neighborhoods A century and some twenty million more inhabitants later Mexico City retains its divided robust and almost labyrinthine character In this provocative and beautifully written book Michael Johns proposes to fathom

the character of Mexico City and through it the Mexican national character that shaped and was shaped by the capital city Drawing on sources from government documents to newspapers to literary works he looks at such things as work taste violence architecture and political power during the formative Diaz era From this portrait of daily life in Mexico City he shows us the qualities that make a Mexican a Mexican and have created a culture in which as the Mexican saying goes everything changes so that everything remains the same **Policing and Boundaries in a Violent Society** Guy
