Disputed Ground Farm Groups That Opposed The New Deal Agricultural Program:

Disputed Ground Jean Choate,2002-02-08 Farmers suffering the effects of drought and depression in the 1930s were looking for relief from what they felt were unfair prices for their crops and reform of the entire agricultural and economic system of which they were the primary part In the election campaign of 1932 they heard Franklin D Roosevelt promise that if elected he would work for a program to help them The vagueness of the president to be led a variety of farm groups to believe that he would support their leaders and programs but some groups such as the Farmers Union were disappointed and their organizers criticized various aspects of the New Deal Agricultural Program During the dire thirties new farm groups were formed to voice their opposition to the program The ideas of these groups were resisted by the Department of Agriculture which fought back to stifle their opposition and largely won This work is a history of seven organizations that opposed Roosevelt s agricultural programs They are the Missouri Farmers Association the Farmers Union the Farm Holiday Movement the Farmers Independence Council the National Farmers Process Tax Recovery Association the Corn Belt Liberty League and the Farmers Guild *The New Deal's War on the Bill of Rights* David T. Beito,2023-10-10 Spying on citizens Censoring critics Imprisoning minorities These are the acts of dictators not American presidents Or are they The legacy of President Franklin D Roosevelt enjoys regular acclaim from historians politicians and educators Lauded for his New Deal policies leadership as a wartime president cozy fireside chats and groundbreaking support of the forgotten man FDR we have been told is worthy of the same praise as men like Washington Jefferson and Lincoln But is that true Does the father of today s welfare state really deserve such generous approbation Or is there a dark side to this golden legacy The New Deal s War on the Bill of Rights The Untold Story of FDR s Concentration Camps Censorship and Mass Surveillance unveils a much different portrait than the standard orthodoxy found in today s historical studies Deploying an abundance of primary source evidence and well reasoned arguments historian and distinguished professor emeritus David T Beito masterfully presents a complete account of the real Franklin D Roosevelt a man who abused power violated human rights targeted dissidents and let his crude racism imprison American citizens merely for being of Japanese descent Read it and discover how FDR shamelessly censored critics of his administration barred them from the public square destroyed their careers and even bankrupted them when possible locked up Japanese American citizens in concentration camps built on American soil sowed the seeds of today s out of control surveillance state and much much more Here is an all too rare portrait of a man who changed the course of American history not for the better Read it and you ll never view the fireside president the same again **When Government Helped** Sheila Collins,Gertrude Goldberg,2014 This book offers new perspectives on comparisons of the intersection of economic and environmental crises of these two periods [The Land-Grant Colleges and the Reshaping of American Higher Education](#) Roger L. Geiger,2017-07-05 This work provides a critical reexamination of the origin and development of America s land grant colleges and universities created by the most important piece of legislation in higher

education The story is divided into five parts that provide closer examinations of representative developments Part I describes the connection between agricultural research and American colleges Part II shows that the responsibility of defining and implementing the land grant act fell to the states which produced a variety of institutions in the nineteenth century Part III details the first phase of the conflict during the latter decades of the nineteenth century about whether land colleges were intended to be agricultural colleges or full academic institutions Part IV focuses on the fact that full fledged universities became dominant institutions of American higher education The final part shows that the land grant mission is alive and well in university colleges of agriculture and in fact is inherent to their identity Including some of the best minds the field has to offer this volume follows in the fine tradition of past books in Transaction s Perspectives on the History of Higher Education series **A Companion to Franklin D. Roosevelt** William D. Pederson, 2011-03-21 A Companion to Franklin D Roosevelt presents a collection of historiographical essays by leading scholars that provides a comprehensive review of the scholarship on the president who led the United States through the tumultuous period from the Great Depression to the waning days of World War II Represents a state of the art assessment of current scholarship on FDR the only president elected to four terms of office and the central figure in key events of the first half of the 20th century Covers all aspects of FDR s life and times from his health relationships and Supreme Court packing to New Deal policies institutional issues and international relations Features 35 essays by leading FDR scholars **Legacies of Dust** Douglas Sheflin, 2019-06-01 2019 Choice Outstanding Academic Title The Dust Bowl of the 1930s was the worst ecological disaster in American history When the rains stopped and the land dried up farmers and agricultural laborers on the southeastern Colorado plains were forced to adapt to new realities The severity of the drought coupled with the economic devastation of the Great Depression compelled farmers and government officials to combine their efforts to achieve one primary goal keep farmers farming on the Colorado plains In Legacies of Dust Douglas Sheflin offers an innovative and provocative look at how a natural disaster can dramatically influence every facet of human life Focusing on the period from 1929 to 1962 Sheflin presents the disaster in a new light by evaluating its impact on both agricultural production and the people who fueled it demonstrating how the Dust Bowl fractured Colorado s established system of agricultural labor Federal support combined with local initiative instituted a broad conservation regime that facilitated production and helped thousands of farmers sustain themselves during the difficult 1930s and again during the drought of the 1950s Drawing from western environmental transnational and labor history Sheflin investigates how the catastrophe of the Dust Bowl and its complex consequences transformed the southeastern Colorado agricultural economy Annals of Iowa , 2003 *The Making of a National Forest* Joseph John Jones, 2007 Kansas History , 2016 **Choice** , 2003 **America, History and Life** , 2004 Article abstracts and citations of reviews and dissertations covering the United States and Canada *Internationale Bibliographie der Rezensionen wissenschaftlicher Literatur* , 2003 **International Bibliography of Book Reviews of**

Politics and Production Control Amanda B. Biles,University of Central Oklahoma,2011 Throughout the 1930s the Roosevelt administration enacted numerous federal programs under the umbrella of the New Deal among these was a series of agriculture regulations designed improve the plight of the American farmer In 1936 the Supreme Court invalidated the earliest of these programs the 1934 Agricultural Adjustment Act and two years after that decision Roosevelt called a special session of Congress to enact replacement legislation for the earlier law The resulting Agricultural Adjustment Act and Administration proved highly controversial and farmers from the upper Midwest to the deepest tip of Texas met this plan with drastically different reactions which ranged from open rebellion and lawsuits on one end to joyous compliance on the other This study focuses primarily on the political regional and economic differences that produced these disparate responses and argues that such reactions resulted chiefly from the degree of economic hardship experienced in any given region Cotton farmers supported the law because they faced extreme economic distress from massive overproduction Conversely Midwestern corn farmers who enjoyed greater economic prosperity expressed ideological opposition to the law they found financially unnecessary Chapter one of this work provides an in depth analysis of the current literature in the field of New Deal agricultural legislation The controversial nature of the act prompted reactionary and polemical studies almost immediately following its enactment These works began with Anna Rochester s *Why Farmers are Poor* which took a sharply negative view of the AAA for not doing enough to promote the interests of the small farmer Subsequent works embraced varying interpretations of the New Deal but until recently few studies examined the perspectives of the dirt farmers themselves Contemporary scholarship erupted in 2002 with a host of new studies printed that year Contrary to Rochester s argument that the legislation fell short in achieving its goal Jean Choate presented a disapproving picture of such programs which she suggested went too far in attempting to secure stability and prosperity for the American farmer Choate s *Disputed Ground* 2002 discussed the major opposition groups to New Deal Agricultural programs with every organization featured in its own chapter Through the eyes of these groups Choate worked to reveal a disapproving public who wanted simply to be let alone by their government Another example of these new works included Michael Johnston Grant s work *Down and Out on the Family Farm Rural Rehabilitation in the Great Plains 1929 1945* Grant s book pioneered the comparative case study approach embraced here He selected a set of states grouped along regional boundaries and used the responses of those farmers to paint a local picture of the AAA A thorough discussion of Grant s work and its impact on *Politics and Production Control* can be found in chapter one Following the analysis of secondary sources chapters two through four each examine a single state and the responses of the farmers in those areas to the Agricultural Adjustment Administration Chapter two A Thankful Texas reveals the mindset of cotton farmers in the largest cotton producing state in the nation It demonstrates their

great economic need at the time and uncovers some of the unique challenges faced by Texas growers which occasionally put them at odds with their colleagues in other states Oklahoma Optimism studies Sooner state farmers in much the same way but provides examples of some marked ideological differences between them and their neighbors to the south Both Oklahoma and Texas cotton farmers embraced the 1938 farm bill but each did so with an emphasis on the individualized interests of their own farmer populations Chapter four Revolt in the Corn Belt offers a sharp contrast with the first two case studies It examines a region that not only refused to embrace the legislation but waged an all out war against the program This discussion of Illinois farmers illuminates the controversial and divisive nature of the AAA and provides additional insight into some farmers ideology of New Deal opposition Corn growers at the time enjoyed higher crop prices than their counterparts in cotton and thus comfortably opposed the farm bill based on their commitment to freedom and their demand for fairness in the administration of federal regulations They drifted away from this position however when they began to understand the degree to which they could benefit economically by designing and cooperating with alternative federal programs The final chapter of this work places each of the case study states in historical context with one another and offers an expanded analysis of their similarities and differences It demonstrates the impact of a region s economic situation on that region s response to the AAA and highlights the differences present between cotton and corn farmers that led to their unique reactions Abstract
