The Dissenting Academy Theodore Roszak, 1969 *The Dissenting Academy. Ed. by Th. Roszak. [With Contribs of Th. Roszak, L. Kampf, S.M. Rosen A.o.]* Theodore Roszak, L. Kampf, S. M. Rosen, 1969 **The Dissenting Feminist Academy** Gisele Marie Thibault, 1987 This book is a general statement about universities and about the universities response to and interaction with feminism From the late nineteenth century to the current decade feminists have confronted the university structure infiltrated it as they have resisted and rejected it Within the parameters of this tension and contradiction feminist scholarship has paradoxically transformed the nature and content of academe while it has fought against the barriers higher education has imposed to both feminist philosophy and to women In this analysis the author explores how such a contradiction was manifested in the mid to late nineteenth century university in the late 1960 s and in the 1980 s in the modern research university in North America She examines how the university as we know it politically economically and socially implements women s subordination through its institutional polity its academic disciplines and its ideological aerobics in promoting the private public spheres Finally the author boldly suggests that the dissent of feminism offers perhaps the greatest and the most plausible alternative both to the ills which beset the contemporary academy and to the future of academe In a word such an academy must be created or face intellectual extinction not just for women but for humanity **Bulletin of the Atomic Scientists**, 1968-11 The Bulletin of the Atomic Scientists is the premier public resource on scientific and technological developments that impact global security Founded by Manhattan Project Scientists the Bulletin s iconic Doomsday Clock stimulates solutions for a safer world [Dissenting Academies in England](#) Irene Parker, 1914 **The Textual Culture of English Protestant Dissent 1720-1800** Tessa Whitehouse, 2015 The Textual Culture of English Protestant Dissent 1720 1800 explores the sociable character of dissenters teaching and writing in the eighteenth century by focussing on manuscript cultures and publishing projects [The Taunton Dissenting Academy](#) Brian Kirk, 2005-01-01 *Science, Philosophy and Religion in the Age of the Enlightenment* John Gascoigne, 2024-10-28 Taking as its focus the wide ranging character of the Enlightenment both in geographical and intellectual terms this second collection of articles by John Gascoigne explores this movement s filiation and influence in a range of contexts In contrast to some recently influential views it emphasises the evolutionary rather than the revolutionary character of the Enlightenment and its ability to change society by adaptation rather than demolition This it does by reference firstly to developments in Britain tracing the changing views of history in relation to the Biblical account the ideological uses of science and particularly the work of Newton and their connections to developments in moral philosophy and the teaching of science and philosophy in response to Enlightenment modes of thought The collection then turns to the wider global setting of the Enlightenment and the way in which that movement served to provide a justification for European exploration and expansion developments which found one of their most potent embodiments in the diverse uses of mapping The collection concludes with an

exploration of the interplay between the experience of Pacific contact and the currents of thought which characterised the Enlightenment in Germany **Britain in the Hanoverian Age, 1714-1837** Gerald Newman, Leslie Ellen Brown, 1997 In 1714 king George I ushered in a remarkable 123 year period of energy that changed the face of Britain and ultimately had a profound effect on the modern era The pioneers of modern capitalism industry democracy literature and even architecture flourished during this time and their innovations and influence spread throughout the British empire including the United States Now this rich cultural period in Britain is effectively surveyed and summarized for quick reference in a first of its kind encyclopedia which contains entries by British Canadian American and Australian scholars specializing in everything from finance and the fine arts to politics and patent law More than 380 illustrations mostly rare engravings enhance the coverage which runs the whole gamut of political economic literary intellectual artistic commercial and social life and spotlights some 600 prominent individuals and families **Religious Dissent and the Aikin-Barbauld Circle, 1740-1860** Felicity

James, Ian Inkster, 2011-11-03 Recent criticism is now fully appreciating the nuanced and complex contribution made by Dissenters to the culture and ideas of the eighteenth and nineteenth centuries in Britain This is the first sustained study of a Dissenting family the Aikins from the 1740s to the 1860s Essays by literary critics historians of religion and science and geographers explore and contextualize the achievements of this remarkable family including John Aikin senior tutor at the celebrated Warrington Academy and his children poet Anna Letitia Barbauld and John Aikin junior literary physician and editor The latter's children in turn were leading professionals and writers in the early Victorian era This study provides new perspectives on the social and cultural importance of the family and their circle an untold story of collaboration and exchange and a narrative which breaks down period boundaries to set Enlightenment and Victorian culture in dialogue
