Disturbance And Recovery In Arctic Lands

John L. Innes, J. Oleksyn

Disturbance And Recovery In Arctic Lands:

Disturbance and Recovery in Arctic Lands R.M. Crawford, 1997-03-31 The disturbance and recovery of arctic terrestrial ecosystems was the subject of a NATO Advanced Workshop held at the Arctic Centre University of Lapland Rovaniemi Finland in September 1995 The object of the meeting was to bring together researchers on arctic vegetation who share a concern for the preservation of arctic ecosystems A particular aim of the meeting was to involve as many Russian colleagues as possible and to encourage younger scientists currently active in the Russian Arctic to come to Rovaniemi and make first hand contact with colleagues from other countries with a view to planning further collaboration This volume of papers therefore contains papers both from many younger researchers as well as from those who have been active in arctic plant ecology for many years Disturbance is no new feature in the arctic environment The factors that create the arctic habitat include marked climatic oscillations physical disturbance and fluctuations in herbivore populations The combination of environmental stress and disturbance from habitat instability and the possibility of periods of intense grazing imposes a particularly testing blend of adverse conditions for plant survival The physical nature of the terrain with constant soil movement through cryoperturbation and solifluction contributes to the fragility of arctic habitats To this scenario we must add disturbance by man in the unending quest for yet more natural resources whether they be animal vegetable or mineral or merely the concept of environmental experience as in tourism

Tundra Disturbances and Recovery Following the 1949 Exploratory Drilling, Fish Creek, Northern Alaska Daniel E. Lawson, 1978 A 1949 drill site in the Naval Petroleum Reserve Number 4 Alaska the Fish Creek Test Well 1 was examined in August 1977 to determine the disturbance caused by drilling activities and to analyze the response and recover of the vegetation soils permafrost and surficial materials to that disturbance The site abandoned in 1949 is located along Camp Creek a tributary to Fish Creek located 28 km south of Atigaru Point and west of Nuiqsut

Social and Environmental Impacts in the North: Methods in Evaluation of Socio-Economic and Environmental Consequences of Mining and Energy Production in the Arctic and Sub-Arctic Rasmus Ole Rasmussen, Natalia E. Koroleva, 2012-12-06 Future development in the Arctic and Subarctic region requires careful attention to the possible consequences of the development activities themselves in relation to their environmental socioeconomic and cultural impacts A more thorough understanding of the impact of future activities however demands the dissemination and confrontation of results from different regions and different scientific traditions This requires scientific cooperation not only across disciplines but across border Primarily it requires both consensus and innovations in regard to methods This book confronts such differences in approaches and methods in relation to the analysis of socioeconomic and environmental consequences of large scale mineral and energy development activities in the Arctic and Subarctic establishing the common ground upon which future research activities can be based

Thirty Years of Recovery from Vehicle Disturbance in Alaskan Arctic Tundra Steven P. Rewa, 2003

Cumulative Environmental Effects of Oil and Gas Activities on

Alaska's North Slope National Research Council, Division on Earth and Life Studies, Polar Research Board, Board on Environmental Studies and Toxicology, Committee on Cumulative Environmental Effects of Oil and Gas Activities on Alaska's North Slope, 2003-10-04 This book identifies accumulated environmental social and economic effects of oil and gas leasing exploration and production on Alaska's North Slope Economic benefits to the region have been accompanied by effects of the roads infrastructure and activities of oil and gas production on the terrain plants animals and peoples of the North Slope While attempts by the oil industry and regulatory agencies have reduced many of the environmental effects they have not been eliminated The book makes recommendations for further environmental research related to environmental effects An International Perspective on Wetland Rehabilitation W.J. Streever, 2012-12-06 Bill Streever author of Bringing Back the Wetlands and numerous technical articles about wetland restoration and creation worked for two years to bring together this collection of papers Authors ranging from private landowners to government managers to scientists present regional overviews case studies and discussions of various issues Regional overviews cover areas as small as the Commonwealth of the Northern Mariana Islands to areas as large as Australia and Africa Case studies range from relatively small projects such as rehabilitation of damage caused by wheel ruts in the high arctic to much larger projects such as attempts to rehabilitate thousands of hectares of Northern Territory wetlands in Australia Seedbank ecology economics remote sensing community involvement the role of the wetland consulting industry and other issues are discussed In an effort to synthesize information from around the world Joy Zedler presents a model that allows comparison of projects and may lead to better predictability of project outcomes In An International Perspective on Wetland Rehabilitation authors describe planting engineered structures prescribed flooding excavation and other rehabilitation methods from Israel to New Zealand to the Netherlands and elsewhere For the first time one volume offers an impression of the magnitude and diversity of the field of wetland rehabilitation around the globe *Handbook of Ecological Restoration* Martin R. Perrow, Anthony J. Davy, 2002-09-05 The two volumes of this handbook provide a comprehensive account of the emerging and vibrant science of the ecological restoration of both habitats and species Ecological restoration aims to achieve complete structural and functional self maintaining biological integrity following disturbance In practice any theoretical model is modified by a number of economic social and ecological constraints Consequently material that might be considered as rehabilitation enhancement reconstruction or re creation is also included Restoration in Practice provides details of state of the art restoration practice in a range of biomes within terrestrial and aquatic marine coastal and freshwater ecosystems Policy and legislative issues on all continents are also outlined and discussed The accompanying volume Principles of Restoration defines the underlying principles of restoration ecology The Handbook of Ecological Restoration will be an invaluable resource to anyone concerned with the restoration rehabilitation enhancement or creation of habitats in aquatic or terrestrial systems throughout the world Arctic, Antarctic, and Alpine Research, 2009 **The Arctic regions. To which is added, the recovery of the**

Resolute. With an account of the new British expedition Peter Lund Simmonds, 1875 **Encyclopedia of Environment and Society** Paul Robbins, 2007-08-27

As befits the topic this beautifully packaged wonderfully illustrated interdisciplinary resource has more than 1200 entries written by specialists A helpful reader's guide groups topics like agriculture conservation and ecology movements and regulations politics pollution and society A resource guide chronology glossary and list of the UN's economic indicators complete the set Library Journal this important work gives a well focused snapshot of environmentalism in the early 21st Century and it will remain valuable into the future both for its content and as a yardstick to measure progress toward sustainability and conservation Summing Up Recommended Undergraduates and general readers CHOICE Booklist Editors' Choice 2008 This superb interdisciplinary work should find a place on the shelves of every public and academic library that has the least bit of interest in environment issues which should mean just about all Booklist Starred Review

Where does the environment leave off and society begin When expanding production and consumption drives greenhouse gas emissions that warm the planet which in turn influence the conditions of economic expansion it is unclear where the climate ends and the economy begins This fact is not new to our era however our social and natural sciences have only recently come to grips with the incredible complexity of the world described by understanding the environment and society as being of a piece As a result in the last decade there has been an unprecedented explosion of new concepts theories facts and techniques that follow from such an understanding The Encyclopedia of Environment and Society brings together multiplying issues concepts theories examples problems and policies with the goal of clearly explicating an emerging way of thinking about people and nature With more than 1 200 entries written by experts from incredibly diverse fields this innovative resource is a first step toward diving into the deep pool of emerging knowledge The five volumes of this Encyclopedia represent more than a catalogue of terms Rather they capture the spirit of the moment a fascinating time when global warming and genetic engineering represent only two of the most obvious examples of socio environmental issues

Key Features Examines many new ideas about how the world works what creates the daunting problems of our time and how such issues might be addressed whether by regulation markets or new ethics Demonstrates how theories of environmental management based on market efficiency may not be easily reconciled with those that focus on population and both may certainly diverge from those centering on ethics justice or labor Offers contributions from experts in their fields of specialty including geographers political scientists chemists anthropologists medical practitioners development experts and sociologists among many others Explores the emerging socio environmental problems that we face in the next century as well as the shifting and expanding theoretical tools available for tackling these problems Covers regions of North America in greater detail but also provides a comprehensive picture that approaches as effectively as possible a cohesive global vision

Key Themes Agriculture Animals Biology and Chemistry Climate Conservation and Ecology Countries Geography History Movements and Regulations Organizations People Politics Pollution Society Packed with essential and up to date information

on the state of the global socio environment the Encyclopedia of Environment and Society is a time capsule of its historic moment and a record of where we stand at the start of the 21st century making it a must have resource for any library These inspiring volumes provide an opportunity for more new ways of thinking behaving and living in a more than human world

Vegetation Changes on Seismic Lines from Recent (2000-2001) and Historic (1970-1986) Seismic Programs in the Mackenzie Delta Area J. Todd Kemper, 2006 Plant communities on seismic lines were surveyed and compared to those of adjacent undisturbed sites Two periods of seismic exploration were examined 2000 2001 recent operations and 1970 1986 historic operations *Boreal Environment Research* ,1999 **Proceedings, High Altitude Revegetation Workshop** ,2000 **The Global Climate System Review** ,1993 **Forest Dynamics in Heavily Polluted Regions** John L. Innes, J. Oleksyn, 2000 Air pollution has been recognized as a potential problem for forests for nearly 150 years Today sulphur dioxide fluorides heavy metals and ozone are a significant problem usually from large scale sources in industrial and urban areas Problems are exacerbated in those regions where there is a poor understanding of the factors involved in forest decline and destruction and no rigorous control over it has been established This book is the first report from the International Union of Forest Research Organization s IUFRO Task Force on Environmental Change and provides an assessment of the extent of air pollution impacts on forests in heavily polluted regions It includes case studies from Russia Ontario Canada California and the Mediterranean region It is also the first volume in a new book series covering many areas of forestry research published by CABI Publishing in association with IUFRO **Proceedings, High Altitude Revegetation Workshop No. 14, Colorado State University, Fort Collins, Colorado, March 8-10, 2000** Warren R. Keammerer, 2000 **Berichte zur Polar- und Meeresforschung** ,2000 **Northeast National Petroleum Reserve-Alaska (NPR-A)** ,1998 **Polar Research** ,2000 *Ninth International Conference on Permafrost* Douglas L. Kane, Kenneth M. Hinkel, 2008 F Final Program S Summary Program Abstracts IPA Reports A Extended Abstracts 1 Volume 1 2 Volume 2

When people should go to the ebook stores, search creation by shop, shelf by shelf, it is essentially problematic. This is why we provide the ebook compilations in this website. It will unquestionably ease you to look guide **Disturbance And Recovery In Arctic Lands** as you such as.

By searching the title, publisher, or authors of guide you in point of fact want, you can discover them rapidly. In the house, workplace, or perhaps in your method can be all best area within net connections. If you seek to download and install the Disturbance And Recovery In Arctic Lands, it is entirely simple then, in the past currently we extend the colleague to purchase and create bargains to download and install Disturbance And Recovery In Arctic Lands appropriately simple!
