Divided Heart Scandinavian Immigrant Exp:

The Divided Heart Dorothy Burton Skårdal, 1974 **North American Encounters** Dieter Meindl, 2002 These essays in English except for four items in German and French provide an intercultural perspective They deal with such diverse aspects of North American including Quebecois literature The continental context also pervades treatments of novels featuring Indian wars sentimentalism the West and modern p caros story cycles e g Atwood s and the long poem Kroetsch **Twofold Identities** Øyvind Tveitereid Gulliksen, 2004 Twofold Identities is a study of Midwestern American literature as well as of Norwegian American immigrant texts Many readers have judged the latter to be a mere reflection of immigrant experience a judgment that is neither fair nor correct These American writers were forced to confront an essentially modern experience complicated by the contextual duality of bilingualism For early Midwestern immigrant writers and their readers the task of homemaking in a new setting was a philosophically challenging and highly problematic endeavor These Midwestern writers were not lost divided nor rootless They had the unique privileged ability to draw on the resources of two worlds As writers they enjoyed and helped to strengthen twofold identities The American West: A New Interpretive History Robert V. Hine, John Mack Faragher, Jon T. Coleman, 2017-08-08 A fully revised and updated new edition of the classic history of western America The newly revised second edition of this concise engaging and unorthodox history of America s West has been updated to incorporate new research including recent scholarship on Native American lives and cultures An ideal text for course work it presents the West as both frontier and region examining the clashing of different cultures and ethnic groups that occurred in the western territories from the first Columbian contacts between Native Americans and Europeans up to the end of the twentieth century *The Divided Heart* Dorothy Burton Skårdal, 1974 Speaking of Diversity Philip Gleason, 2019-12-01 Originally published in 1992 In this collection of essays Philip Gleason explores the different linguistic tools that American scholars have used to write about ethnicity in the United States and analyzes how various vocabularies have played out in the political sphere In doing this he reveals tensions between terms used by academic groups and those preferred by the people whom the academics discuss Gleason unpacks words and phrases such as melting pot and plurality used to visualize the multitude of ethnicities in the United States And he examines debates over concepts such as assimilation national character oppressed group and people of color Gleason advocates for greater clarity of these concepts when discussed in America s national political arena Gleason s essays are grouped into three parts Part 1 focuses on linguistic analyses of specific terms Part 2 examines the effect of World War II on national identity and American thought about diversity and intergroup relations Part 3 discusses discourse on the diversity of religions This collection of eleven essays sharpens our historical understanding of the evolution of language used to define diversity in twentieth century America American Studies Jack Salzman, 1986-08-29 This is an annotated bibliography of 20th century books through 1983 and is a reworking of American Studies An Annotated Bibliography of Works on the Civilization of the United States

published in 1982 Seeking to provide foreign nationals with a comprehensive and authoritative list of sources of information concerning America it focuses on books that have an important cultural framework and does not include those which are primarily theoretical or methodological It is organized in 11 sections anthropology and folklore art and architecture history literature music political science popular culture psychology religion science technology medicine and sociology Each section contains a preface introducing the reader to basic bibliographic resources in that discipline and paragraph length non evaluative annotations Includes author title and subject indexes ISBN 0 521 32555 2 set 150 00 A Literary History of the American West Western Literature Association (U.S.),1987 Literary histories of course do not have a reason for being unless there exists the literature itself This volume perhaps more than others of its kind is an expression of appreciation for the talented and dedicated literary artists who ignored the odds avoided temptations to write for popularity or prestige and chose to write honestly about the American West believing that experiences long known to be of historical importance are also experiences that need and deserve a literature of importance **Scandinavian Review** ,1975 **The Experience of Immigration** Yehoshua S. Cohen,1998 The book brings to light in a social science framework the various aspects of the process of social integration and cultural adaptation of the new immigrants arriving in Israel in large numbers in the 1950s The integration of the new immigrants was well studied in social science research during the relevant years especially by Israeli sociologists but Professor Cohens study is of a different quality and nature The study surveys various literary works written in Hebrew by Israeli authors many of them immigrants themselves Its main subject matter is the meeting and often the confrontation between new comers and old timers in Israel between the cultures of the Jewish Diaspora and that which evolved among the Jewish population in the country in prior decades The study of literary works as research materials is a new trend in social sciences and particularly in the discipline of geography Professor Cohens book is a pioneering study in this new direction *The Immigrant Experience* Paul D. Mageli,1991 Cites works of historians anthropologists sociologists psychologists artists and immigrants themselves about both past and recent immigration into the US from all parts of the world The substantial annotations are descriptive and evaluative including an indication of their technical level Annotation copyrighted by Book News Inc Portland OR **The Immigration History Newsletter** ,1987 Double Jeopardy Dorothea Diver Stuecher,1981 *Reading Across the Divide* Theresa M. Kanoza,1995 Nebraska State Publications Checklist ,1973 Historians and the American West Michael P. Malone,1983 Farm Women on the Prairie Frontier Carol Fairbanks,Sara Brooks Sundberg,1983 Four essays in this sourcebook provide useful introductions to the land and the people the history and the fiction of the grasslands of Canada and the United States Annotations direct readers and researchers to relevant materials in history and literature Ethnic Activism in Norwegian-American Literature Peter Thaler,1993

American Immigrant Leaders, 1800-1910 Victor R. Greene,1987 The author s major contention in this work is that a careful and judicious illumination of the lives of some immigrant group pioneers can reveal important attitudes and

sentiments of their followers and show how one could be both ethnic and American Pref *Migrants, Immigrants, and Slaves* George Henderson, Thompson Olatunji, 1995-01-10 Through diversity America has grown strong as a nation Although all segments of the population share certain life patterns and basic beliefs there are many differences in traditional lifestyles and cultures among ethnic groups Respect for such differences is a benchmark of a democratic nation *Migrants Immigrants and Slaves* documents the fact that all American ethnic groups have been both the oppressed and the oppressors The book is written for introductory American history ethnic studies and sociology courses Special attention is given to the immigration patterns and cultural contributions of more than 50 ethnic groups
