Divided Highways Building The Interstate Highways Transforming American Life:

Divided Highways Tom Lewis, 2013-04-19 In *Divided Highways* Tom Lewis offers an encompassing account of highway development in the United States. In the early twentieth century Congress created the Bureau of Public Roads to improve roads and the lives of rural Americans. The Bureau was the forerunner of the Interstate Highway System of 1956 which promoted a technocratic approach to modern road building sometimes at the expense of individual lives, regional characteristics, and the landscape. With thoughtful analysis and engaging prose, Lewis charts the development of the Interstate system including the demographic and economic pressures that influenced its planning and construction and the disputes that pitted individuals and local communities against engineers and federal administrators. This is a story of America's hopes for its future life and the realities of its present condition. It is an engaging history of the people and policies that profoundly transformed the American landscape and the daily lives of Americans. In this updated edition of *Divided Highways*, Lewis brings his story of the Interstate system up to date, concluding with Boston's troubled and yet triumphant Big Dig project, the growing antipathy for big federal infrastructure projects, and the uncertain economics of highway projects both present and future.

The Highway Horror Film Bernice M. Murphy, 2014-03-12 *The Highway Horror Film* argues that Highway Horror is a hitherto overlooked sub genre of the American horror movie. In these films the American landscape is by its very accessibility rendered terrifyingly hostile and encounters with other travellers almost always have sinister outcomes.

The Laws That Shaped America Dennis W. Johnson, 2009-05-31 Dennis W. Johnson tells the story of fifteen major laws enacted over the course of two centuries of American democracy, for each looking at the forces and circumstances that led to its enactment, the often tempestuous political struggles, the political players who were key in proposing or enacting the legislation, and the impact of the legislation and its place in American history.

Highway Heist James T. Bennett, 2022-10-03 In this eye-opening book, Professor James Bennett guides readers through centuries of one of the most underrated yet widely used aspects of American life: roads. Relying on history and economic data and with a humorous and oftentimes sharp tongue, Bennett explains how important America's highways and byways have been to everything from policymaking to everyday life. Crafting America's roads took persuasion, planning, and more taxes than any politician could have dreamed of. And far too often their realization thanks, in Bennett's view, to flawed interpretations of the power of eminent domain, required destruction, sometimes on a massive scale, of long-established neighborhoods and important cityscapes. Likewise, the upkeep of America's highways has been the center of many a policy battle waged by Republicans and Democrats alike. Yes, we all want roads in good working condition, but just how and who will pay for them remain contentious questions. Bennett argues persuasively that the road forward just might be a second, but more serious, sustained look at and local experimentation with private roads and toll roads. Agree or disagree with him, Bennett has written a significant contribution to America's ongoing debate about how her citizens should traverse from sea to shining sea, its fruited plain.

The Fate of Cities Roger Biles, 2011 The first major comprehensive treatment of urban revitalization in 35 years Examines the federal government's relationship with urban America from the Truman through the Clinton administrations Provides a telling critique of how in the long run government turned a blind eye to the fate of cities *Divided Highways* Tom

Lewis, 1997 Relates the history of the conception and building of the Interstate Highway System and its affect on the American lifestyle **Road to Nowhere** Emily Lieb, 2025-11-06 Traces the birth plunder and scavenging of Rosemont a Black middle class neighborhood in Baltimore In the mid 1950s Baltimore's Rosemont neighborhood was alive and vibrant with smart rowhouses a sprawling park corner grocery stores and doctor's offices By 1957 a proposed expressway threatened to gut this Black middle class community from stem to stern That highway was never built but it didn't matter even the failure to build it destroyed Rosemont economically if not physically In telling the history of the neighborhood and the notional East West Expressway Emily Lieb shows the interwoven tragedies caused by racism in education housing and transportation policy Black families had been attracted to the neighborhood after Baltimore's Board of School Commissioners converted several white schools into colored ones which had also laid the groundwork for predatory real estate agents who bought low from white sellers and sold high to determined Black buyers Despite financial discrimination Black homeowners built a thriving community before the city council formally voted to condemn some nine hundred homes in Rosemont for the expressway leading to deflated home values and even more predatory real estate deals Drawing on land records oral history media coverage and policy documents Lieb demystifies blockbusting redlining and prejudicial lending highlighting the national patterns at work in a single neighborhood The result is an absorbing story about the deliberate decisions that produced racial inequalities in housing jobs health and wealth as well as a testament to the ingenuity of the residents who fought to stay in their homes down to today **Globalizing Automobility** Gijs Mom, 2020-08-07 Why has car society

proven so durable even in the face of mounting environmental and economic crises In this follow up to his magisterial *Atlantic Automobility* Gijs Mom traces the global spread of the automobile in the postwar era and investigates why adopting more sustainable forms of mobility has proven so difficult Drawing on archival research as well as wide ranging forays into popular culture Mom reveals here the roots of the exuberance excess and danger that define modern automotive culture

Car Country Christopher W. Wells, 2013-05-15 For most people in the United States going almost anywhere begins with reaching for the car keys This is true Christopher Wells argues because the United States is Car Country a nation dominated by landscapes that are difficult inconvenient and often unsafe to navigate by those who are not sitting behind the wheel of a car The prevalence of car dependent landscapes seems perfectly natural to us today but it is in fact a relatively new historical development In *Car Country* Wells rejects the idea that the nation's automotive status quo can be explained as a simple byproduct of an ardent love affair with the automobile Instead he takes readers on a tour of the evolving American landscape charting the ways that transportation policies and land use practices have combined to reshape nearly every element of the

built environment around the easy movement of automobiles Wells untangles the complicated relationships between automobiles and the environment allowing readers to see the everyday world in a completely new way The result is a history that is essential for understanding American transportation and land use issues today Watch the book trailer <http://www.youtube.com/watch?v=48LTKOxxrXQ>

The Folklore of the Freeway Eric Avila, 2014-05-01 When the interstate highway program connected America's cities it also divided them cutting through and destroying countless communities Affluent and predominantly white residents fought back in a much heralded freeway revolt saving such historic neighborhoods as Greenwich Village and New Orleans's French Quarter This book tells of the other revolt a movement of creative opposition commemoration and preservation staged on behalf of the mostly minority urban neighborhoods that lacked the political and economic power to resist the onslaught of highway construction Within the context of the larger historical forces of the 1960s and 1970s Eric Avila maps the creative strategies devised by urban communities to document and protest the damage that highways wrought The works of Chicanas and other women of color from the commemorative poetry of Patricia Preciado Martin and Lorna Dee Cervantes to the fiction of Helena Maria Viramontes to the underpass murals of Judy Baca expose highway construction as not only a racist but also a sexist enterprise In colorful paintings East Los Angeles artists such as David Botello Carlos Almaraz and Frank Romero satirize criticize and aestheticize the structure of the freeway Local artists paint murals on the concrete piers of a highway interchange in San Diego's Chicano Park The Rondo Days Festival in St Paul Minnesota and the Black Archives History and Research Foundation in the Overtown neighborhood of Miami preserve and celebrate the memories of historic African American communities lost to the freeway Bringing such efforts to the fore in the story of the freeway revolt The Folklore of the Freeway moves beyond a simplistic narrative of victimization Losers perhaps in their fight against the freeway the diverse communities at the center of the book nonetheless generate powerful cultural forces that shape our understanding of the urban landscape and influence the shifting priorities of contemporary urban policy

Paving the Way Michael R. Fein, 2008 Tells the surprising story of how road construction helped to pave the way to the modern American state Shows how the growing transportation needs of a steadily industrializing population changed political order from local to state and ultimately to federal governance

Television in Black-and-white America Alan Nadel, 2005 La couverture indigne Alan Nadel's new book reminds us that most of the images on early TV were decidedly Caucasian and directed at predominantly white audiences Television did not invent whiteness for America but it did reinforce it as the norm particularly during the Cold War years Nadel now shows just how instrumental it was in constructing a narrow conservative and very white vision of America During this era prime time TV was dominated by adult Westerns with heroes like The Rebel's Johnny Yuma reincarnating Southern values and Bonanza's Cartwright family reinforcing the notion of white patriarchy programs that Nadel shows bristled with Cold War messages even as they spoke to the nation's mythology America had become visually reconfigured as a vast Ponderosa crisscrossed by concrete highways designed to carry

suburban white drivers beyond the moral challenge of racism racial poverty and increasingly vocal civil rights demands
