students have little potential As a result countless students underachieve others become disengaged and ultimately we all lose Mica Pollock editor of *Everyday Antiracism* the progressive teacher s must have resource now turns to what it takes for those working in schools to match their speech to their values giving all students an equal opportunity to thrive By juxtaposing common scenarios with useful exercises concrete actions and resources Schooltalk describes how the devil is in the oft dismissed details the tossed off remark to a student or parent about the community in which she lives the way groups based on race ability and income are discussed in faculty meetings about test scores and data the assumptions and communication breakdowns between counselors teachers and other staff that cause kids to fall needlessly through the cracks or the deflating comment to a young person about her college or career prospects Schooltalk will empower educators of every ilk revealing to them an incredibly effective tool at their disposal to support the success of all students every day their words

*Divided We Fail* Sarah Garland,2013-01-29 Examines why school desegregation despite its success in closing the achievement gap was never embraced wholeheartedly in the black community as a remedy for racial inequality In 2007 a court case originally filed in Louisville Kentucky was argued before the Supreme Court and officially ended the era of school desegregation both changing how schools across America handle race and undermining the most important civil rights cases of the last century Of course this wasn't the first federal lawsuit to challenge school desegregation But it was the first and only one brought by African Americans In *Divided We Fail* journalist Sarah Garland deftly and sensitively tells the stories of the families and individuals who fought for and against desegregation By reframing how we commonly understand race education and the history of desegregation this timely and deeply relevant book will be an important contribution to the continued struggle toward true racial equality

Larson,Carlos Julio Ovando,2001 Future educators must be aware of educational experiences that will challenge deeply rooted assumptions about communities different from their own and achieve an understanding of the realities of other peoples lives Since many educators misinterpret the social racial and political problems they see and as a result blame the minority and poverty stricken students for not effectively adjusting to the norms and expectations of the educational system the authors of *THE COLOR OF BUREAUCRACY* takes an inquiry practice driven approach to understanding multicultural issues The text immerses the reader in social cultural and political problems through case studies told from multiple perspectives and presents strategies for effective intervention unlike any other multicultural textbook Captivating case studies provide a vehicle for actively engaging students in interpreting
