Essays on Some Disputed Questions in Modern International Law Thomas Joseph Lawrence, 1885 The Disputed Ouestions on Truth: Questions I-IX, translated by R. W. Mulligan Saint Thomas (Aguinas),1952 The Disputed Ouestions on Truth Saint Thomas (Aguinas),1952 The Metaphysical Thought of Thomas Aguinas John F. Wippel, 2000 Written by a highly respected scholar of Thomas Aguinas s writings this volume offers a comprehensive presentation of Aguinas s metaphysical thought It is based on a thorough examination of his texts organized according to the philosophical order as he himself describes it rather than according to the theological order In the introduction and opening chapter John F Wippel examines Aquinas s view on the nature of metaphysics as a philosophical science and the relationship of its subject to divine being Part One is devoted to his metaphysical analysis of finite being It considers his views on the problem of the One and the Many in the order of being and includes his debt to Parmenides in formulating this problem and his application of analogy to finite being Subsequent chapters are devoted to participation in being the composition of essence and esse in finite beings and his appeal to a kind of relative nonbeing in resolving the problem of the One and the Many Part Two concentrates on Aguinas s views on the essential structure of finite being and treats substance accident composition and related issues including among others the relationship between the soul and its powers and unicity of substantial form It then considers his understanding of matter form composition of corporeal beings and their individuation Part Three explores Aguinas s philosophical discussion of divine being his denial that God s existence is self evident and his presentation of arguments for the existence of God first in earlier writings and then in the Five Ways of his Summa theologiae A separate chapter is devoted to his views on quidditative and analogical knowledge of God The concluding chapter revisits certain issues concerning finite being under the assumption that God's existence has now been established John F Wippel professor of philosophy at The Catholic University of America was recently awarded the prestigious Aquinas Medal by the American Catholic Philosophical Association In addition to numerous articles and papers Wippel has coauthored or edited several other works including Metaphysical Themes in Thomas Aguinas and The Metaphysical Thought of Godfrey of Fontaines both published by CUA Press PRAISE FOR THE BOOK The quality of Wippel's historical research and interpretation and the detail of his argumentation make this a work that will have to be taken account of in any further studies of this topic John Boler International Studies in Philosophy A carefully and solidly argued presentation of Aquinas s metaphysics by a scholar of medieval philosophy and a superb metaphysician It should stand on the library shelf of every student of medieval philosophy sharing the stage with Wippel's other dependable works Prof Stephen F Brown Boston College In Wippel we have a master of medieval metaphysics who is at the height of his powers and who can bring to bear on this work of interpretation years of study not only of Aquinas but also of the whole context of medieval metaphysics in which Aquinas thought and wrote The result is a monumental work which will quickly become the definitive work on Aquinas s metaphysics Prof Eleonore Stump St

Louis University Wippel proposes to set forth Thomas Aguinas s metaphysical thought based on his own texts in accord with the philosophical order This is a bold even audacious proposal but one that Wippel succeeds in realizing thanks to his expansive and detailed knowledge of a field in which he has worked for more than twenty years He has total command not only of the works of Thomas of his sources and of his earliest commentators but also of the secondary literature of this century in English Italian French German and Spanish Gregorianum A positively magisterial account of its subject Cistercian Fathers and Their Monastic Theology Thomas Merton, 2016 These conferences presented by Thomas Merton to the novices at the Abbey of Gethsemani in 1963 1964 focus mainly on the life and writings of his great Cistercian predecessor St Bernard of Clairvaux 1090 1153 Guiding his students through Bernard's Marian sermons his treatise On the Love of God his controversy with Peter Abelard and above all his great series of sermons on the Song of Songs Merton reveals why Bernard was the major religious and cultural figure in Europe during the first half of the twelfth century and why he has remained one of the most influential spiritual theologians of Western Christianity from his own day until the present As James Finley writes in his preface to this volume Merton is teaching us in these notes how to be grateful and amazed that the ancient wisdom that shimmers and shines in the eloquent and beautiful things that mystics say is now flowing in our sincere desire to learn from God how to find our way to God Disputed Questions on Virtue Thomas Aquinas, 2012-09-15 The third volume of The Hackett Aguinas a series of central philosophical treatises of Aguinas in new state of the art translations accompanied by a thorough commentary on the text Thomas Aquinas: Disputed Questions on the Virtues Thomas Aguinas, 2005-06-02 The great medieval philosopher Thomas Aguinas 1224 6 1274 was Dominican regent master in theology at the University of Paris where he presided over a series of questions academic debates on ethical topics This volume offers translations of disputed questions on the nature of virtues in general the fundamental or cardinal virtues of practical wisdom justice courage and temperateness the divinely bestowed virtues of hope and charity and the practical question of how when and why one should rebuke a brother for wrongdoing The introduction explains how Aguinas s theory of virtue fits into his ethics as a whole and it illuminates Aquinas s views by explaining the institutional and intellectual context in which these disputed questions were debated **Bonaventure** Christopher M. Cullen, 2006 This volume presents an introduction to the thought of the great Franciscan theologian St Bonaventure It focuses on the relation between philosophy and theology in the work of this thinker presenting Bonaventure as a great synthesizer Kant: Disputed Ouestions Moltke S.
