Divine Commands And Morality:

Divine Commands and Morality Paul Helm, 1981 This collection of twelve papers covers the question of the relation between morality and religion The contributors include William Frankena Philip Quinn Robert Merrihew Adams Richard Swinburne James Rachels Nelson Pike Peter Geach Robert Young Baruch Brody and others **Divine Commands and Moral Requirements** Philip L. Quinn, Philip Lawrence Quinn, 1978 In this wide ranging study Quinn argues that human moral autonomy is compatible with unqualified obedience to divine commands He formulates several versions of the crucial assumptions of divine command ethics defending them against a battery of objections often expressed in the philosophical literature **Kierkegaard's Ethic of Love** C. Stephen Evans, 2004-09-10 C Stephen Evans explains and defends Kierkegaard's account of moral obligations as rooted in God's commands the fundamental command being You shall love your neighbour as yourself The work will be of interest not only to those interested in Kierkegaard but also to those interested in the relation between ethics and religion especially questions about whether morality can or must have a religious foundation As well as providing a comprehensive reading of Kierkegaard as an ethical thinker Evans puts him into conversation with contemporary moral theorists Kierkegaard's divine command theory is shown to be an account that safeguards human flourishing as well as protecting the proper relations between religion and state in a pluralistic society

Divine Command Morality, 1979 An anthology that provides new translations and makes available much of the relevant historical literature needed for an exploration of the view that morality is very literally created by God Contains 41 selections representing discussions of divine command morality in Ancient philosophy scholastic philosophical theology the Reformation tradition the British modern period and contemporary analytic philosophy This book includes a bibliography of Latin French English German and Italian sources on divine command morality *Divine Command Morality* Paul Rooney, 1996 This work is a philosophical defence of the tenability of divine command theory as an acceptable Christian account of morality The theory states that morality is founded upon God's commands It has been associated particularly with Duns Scotus and William of Ockham What God commands man has a moral duty to do what He forbids man ought to avoid and man's duties arise only because God commands or forbids certain things There are various ways of understanding what constitutes a divine command and this work focuses on the claim that revealed scriptural commands are the foundation of morality

Nature and Command J. Caleb Clanton, Craig Martin, 2023-08-18 Since at least the time of Plato religious explanations of the metaphysical foundations of morality have typically fallen into one of two camps natural law theory according to which morality is fundamentally explained by facts about human nature facts that God is responsible for and divine command theory which holds that moral obligations arise directly from God's commands or some other prescriptive act of the divine will J Caleb Clanton and Craig Martin offer an accessible analysis of these traditional views reconstruct the various arguments for and against them and offer an extended consideration of the historical emergence of the divide between these

positions within the Christian tradition Nature and Command goes on to develop and defend a theory that combines these two views a metaethical approach that has not yet received the scholarly attention it deserves Along the way the authors make use of underexplored theological resources drawn from the Stone Campbell movement a nineteenth century restoration movement that culminated in one of the largest Protestant groups in America by the dawn of the twentieth century Nature and Command summons the resources of this particular Christian heritage its first principles call for unity and ecumenism to solve one of the great dilemmas of moral philosophy and theology dating back to Plato's Euthyphro This historically aware argumentatively rigorous and highly readable volume will serve as a valuable resource for moral philosophy and ethics as well as for mining the Stone Campbell Restoration tradition for historical and theological insights

God's Call J. E. Hare, 2001 There has been a debate between modern ethicists who see moral judgments as objectively corresponding to a moral reality independent of human opinion and those who insist that moral judgments are essentially expressions of our will In this excellent philosophical work John Hare outlines a theory that combines the merits of both views arguing that what makes something right is that God calls us to it In the first chapter Hare gives a selective history of the sustained debate within Anglo American philosophy over the last century between moral realists and moral expressivists Best understood as a disagreement about how objectivity and subjectivity are related in value judgment this debate is of particular interest to Christians who necessarily feel pulled in both directions Christians want to say that value is created by God and exists whether we recognize it or not but they also want to say that when we value something our hearts fundamental commitments are also involved Hare suggests prescriptive realism as a way to bring both perspectives together The second chapter examines the divine command theory of John Duns Scotus looking particularly at the relationship that Scotus established between God's commands human nature and human will Hare shows that a Calvinist version of the divine command theory of obligation can be defended via Scotus against natural law theory as well as against contemporary challenges A significant theme treated here is the view that the Fall disordered our natural inclinations rendering them useless as an authoritative source of guidance for right living In the last chapter Hare moves to the key philosophical juncture between the medieval period and our own time the moral theory of Immanuel Kant in the late eighteenth century Modern moral philosophy has largely taken Kant's work as a refutation of divine command theory and a refocusing of the discussion on human autonomy Hare shows that Kant was in fact not arguing against the kind of divine command theory that Hare supports He discusses what Kant meant by saying that we should recognize our duties as God's commands and he defends a notion of human autonomy as appropriation Featuring original moral theory and fresh interpretations of the thought of Duns Scotus and Kant God's Call is valuable both for its overview of the history of moral debate and for its construction of a sound Christian ethic for today

God's Command John E. Hare, 2015-10-29 This work focuses on divine command and in particular the theory that what makes something obligatory is that God commands it and what makes something wrong is that God commands us

not to do it Focusing on the Abrahamic faiths eminent scholar John E Hare explains that two experiences have had to be integrated The first is that God tells us to do something or not to do something The second is that we have to work out ourselves what to do and what not to do The difficulty has come in establishing the proper relation between them In Christian reflection on this two main traditions have emerged divine command theory and natural law theory Hare successfully defends a version of divine command theory but also shows that there is considerable overlap with some versions of natural law theory He engages with a number of Christian theologians particularly Karl Barth and extends into a discussion of divine command within Judaism and Islam The work concludes by examining recent work in evolutionary psychology and argues that thinking of our moral obligations as produced by divine command offers us some help in seeing how a moral conscience could develop in a way that is evolutionarily stable

Religion and Morality William J. Wainwright, 2017-03-02 Religion and Morality addresses central issues arising from religion's relation to morality Part I offers a sympathetic but critical appraisal of the claim that features of morality provide evidence for the truth of religious belief Part II examines divine command theories objections to them and positive arguments in their support Part III explores tensions between human morality as ordinarily understood and religious requirements by discussing such issues as the conflict between Buddhist and Christian pacifism and requirements of justice whether virtue without a love of God is really a vice whether the God of the Abrahamic religions could require us to do something that seems clearly immoral and the ambiguous relations between religious mysticism and moral behavior Covering a broad range of topics this book draws on both historical and contemporary literature and explores afresh central issues of morality and religion offering new insights for students academics and the general reader interested in philosophy and religion

Morality and Divine Commands Tom Aerwyn Roberts, 1968

God and Moral Obligation C. Stephen Evans, 2013-02-28 C Stephen Evans defends the claim that moral obligations are best understood as divine commands or requirements hence an important part of morality depends on God God's requirements are communicated in a variety of ways including conscience and that natural law ethics and virtue ethics provide complementary perspectives to this view

Questions on an Ethics of Divine Commands Andreas, 1997 This text covers the work of 14th century Franciscan Andrew of Neufchateau It presents a selection of arguments prevalent during the medieval period for and against an ethics of divine commands and Andrew's own theory of divine command voluntaristic in nature emphasizing divine liberty

God's Command J. E. Hare, 2015 This work is an exploration of divine command theory which is the theory that what makes something morally obligatory is that God commands it

Introduction to Philosophy of Religion James Kellenberger, 2017-09-29 Using various and competing religious sensibilities Introduction to the Philosophy of Religion helps students work through the traditional material and their own religious questions

Morality and the Good Life Thomas L. Carson, Paul K. Moser, 1997 Contemporary moral philosophers have produced an enormous amount of rich and varied published work on virtually all the issues falling within the scope of ethics and moral philosophy

Morality and the Good Life is a comprehensive survey of contemporary ethical theory which collects thirty four selections on morality and the theory of value Emphasizing value theory metaethics and normative ethics it is non technical and accessible to a wide range of readers Selections are organized under six main topics 1 Concepts of Goodness 2 What Things are Good 3 Virtues and Ethics 4 Realism vs Anti Realism 5 Value and Obligation and 6 The Value and Meaning of Life The text includes both a substantial general introduction featuring explanatory summaries of all the selections and an extensive topical bibliography which enhance the volume s research and pedagogical utility The most up to date and wide ranging survey of its kind Morality and the Good Life is ideal for advanced undergraduate and graduate courses in contemporary ethical theory moral philosophy and theory of value

Religion and Morality Abraham Sagi, Daniel Statman, 1995 Religion and Morality seeks to answer two fundamental questions regarding the relation between religion and morality The first is the puzzle posed by Socrates the so called Euthyphro dilemma which asks is morality valuable by virtue of its intrinsic importance and worth or is morality valuable because and only because God approves it and commands us to follow its dictates The second question is raised by Kierkegaard in Fear and Trembling He asks Is a conflict between religion and morality possible Does God ever demand that we neglect our moral commitments The discussion on these questions is divided into three parts In the first two parts we discuss the idea that morality depends on religion The authors distinguish two types of dependence strong dependence according to which the very existence or validity of moral obligations depends on God s command and weak dependence according to which though morality itself is independent of God God or belief in God is necessary to enable human beings to know their moral duties and to carry them out The authors reject the strong dependence thesis as well as most versions of the weak dependence The third part of the book discusses different versions of the view that religion might conflict with morality The authors reject this view and show that very few religious thinkers would follow it all the way through to its ultimate consequences The book has implications for the philosophy of religion in its emphasis on the centrality of the moral element in religion and for moral philosophy in its highlighting among other things of the nature of moral judgments

The Development of Ethics: From Suarez to Rousseau Terence Irwin, 2007

Ethics and Religion Harry J. Gensler, 2016-05-31 Many people question whether God is the source of morality Under divine command theory God s will creates the moral order and therefore ethical truths are true because of God s will Under natural law on the other hand some ethical truths do not depend on God s will and yet perhaps they depend on his reason or creation Ethics and Religion develops strong defensible and original versions of both divine command theory and natural law The book also discusses ethics and atheism how atheists object on ethical grounds to belief in God and how they view ethics The book defends belief in God from criticisms and analyzes related concepts such as practical reason the golden rule ethics and evolution the problem of evil and the fine tuning argument
