The Division of Literature Peggy Kamuf, 1997-03-02 Where does the university begin and the outside end How has literature become established as a separate domain within the university Demonstrating that these questions of division are intricately related Peggy Kamuf explores the space that the university devotes to the study of literature Kamuf begins by analyzing the complex history of literary study within the modern university critically reading developments from the French Revolution through the nineteenth century and beyond in Europe She then turns to one of the most troubling works in the American literary canon Melville's The Confidence Man to show how academic literary history has avoided confronting the implications of works in which meaning is never solely confined within a past By engaging a future readership to which it applies for credit Kamuf argues literature cannot serve as a stable object of study It locates rather a site of the university in deconstruction Ranging from disciplinary histories of literature to our current culture wars Kamuf offers a fascinating critique of academic literary study Derrida and the Future of the Liberal Arts Mary Caputi, Vincent J. Del Casino, Jr., 2013-04-11 Derrida and the Future of the Liberal Arts highlights the Derridean assertion that the university must exist without condition as a bastion of intellectual freedom and oppositional activity whose job it is to question mainstream society Derrida argued that only if the life of the mind is kept free from excessive corporate influence and political control can we be certain that the basic tenets of democracy are being respected within the very societies that claim to defend democratic principles This collection contains eleven essays drawn from international scholars working in both the humanities and social sciences and makes a well grounded and comprehensive case for the importance of Derridean thought within the liberal arts today Written by specialists in the fields of philosophy literature history sociology geography political science animal studies and gender studies each essay traces deconstruction s contribution to their discipline explaining how it helps keep alive the unconditional contrapuntal mission of the university The book offers a forceful and persuasive corrective to the current Reconstruction in Literary Studies B. Vescio, 2014-08-06 Pointing the way toward a revitalized assault on the liberal arts future for the study of literature Reconstruction in Literary Studies draws on philosophical pragmatism to justify the academic study of literature In turn Vescio connects the changing field to its social function as an institution Jacques Derrida Nicholas Royle, 2003-09-02 There are few figures more important in literary and critical theory than Jacques Derrida Whether lauded or condemned his writing has had far reaching ramifications and his work on deconstruction cannot be ignored This volume introduces students of literature and cultural studies to Derrida's enormously influential texts covering such topics as deconstruction text and difference literature and freedom law justice and the democracy to come drugs secrets and gifts Nicholas Royle's unique book written in an innovative and original style is an outstanding introduction to the methods and significance of Jacques Derrida Occasional Deconstructions Julian Wolfreys, 2004-10-14 Argues that deconstruction is not a critical methodology or theory but that which makes any act of good reading possible Warped

concepts of text culture and technology in order to show what semiotics had always had to marginalize forget or not see in the quest to professionalize itself Meanwhile outside the limitation of any discipline the secular mysteries of text culture and technology today continue to call for a response not with the aim of laying bare the truth but of opening up the sign

Reshaping Philosophy: Michael Boylan's Narrative Fiction Wanda Teays, 2022-05-25 This volume offers original essays exploring what fictive narrative philosophy might mean in the research and teaching of philosophy The first part of the book presents theoretical essays that examine Boylan's recent books Teaching Ethics with Three Philosophical Novels and Fictive Narrative Philosophy How Literature can Act as Philosophy The second and third part offer essays on how Boylan executes his theory in the practice within his novels from his two series De Anima and Arch The book clearly shows the unique aspects of the fictive narrative philosophy approach First it makes story telling accessible to wide audiences Second story telling techniques invoke devices that can set out complicated existential problems to the reader that offer an additional approach to thorny problems through the presentation of lived experience Third the discussion of these devices is a way to explore philosophical problems in a way that many can profit from The book concludes with an essay in which Boylan responds to the critical challenges set out in Part One and the practical criticism set out in Parts Two and Three Boylan addresses the key claims made by his objectors and defends his position. He engages with the authors in the way his theory is matched against his actual novels. This is useful reading for both philosophers and professors of literature teaching introductory as well as upper level courses in the fields of philosophy literature and criticism The American Scholar William Allison Shimer, 1997 Deconstruction in Context Mark C.
