Raising Talent - How to Fast-Track Potential into Performance Tim Goodenough, 2012-09-29 High performance in general and in sport in particular is becoming more and more competitive Today's parents and the coaches of talented youngsters face many challenges They know intuitively that they need to do something to help their children achieve their full potential but what is that something Executive coaches Tim Goodenough and Michael Cooper are highly experienced at working with people who want to develop that elusive balance between work and life while at the same time trying to develop their potential to get the most out of both They also work in the world of high performance sport In Raising Talent they set about discovering understanding and learning what the key dynamics and challenges are for developing talent especially that of children As their thinking became sharper and their principles better defined several models and techniques emerged and this book explains their context and how they may apply in your home They provide an accessible and quality self coaching programme and a solid foundation of high performance theory for fast tracking development This unique system of accelerating performance means that the hard working individual now has access to many of the mental coaching techniques and benefits that normally only a highly skilled professional would be able to provide Although aimed at parents more than any other group the principles and techniques in Raising Talent can be applied to the development of performance regardless of the level of talent at any age In fact these same models and principles have been successfully used to accelerate the performance of Olympians executives international athletes and performers in multiple sports and contexts as well as to develop Tim's karaoke singing

us in our societies are once again able to step out of the confinement imposed by the pandemic to breath freely again
 Another interpretation hand in hand with the snappy front cover image might refer to Andy Warhol s iconic pop art
 consumerism or simply the tastiness of the contents the tin cans hold a little like the insights in this magazine if I dare say
 And lastly the shades of green to the cans give the message that our consuming society might well contain a new and more
 responsible sustainable taste to it In any case we hope you download this Global Voice 21 issue open it up and consume its
