# My 10 Tips for Teaching on Tiktok

TIP #1:

Mix up  
length of  
videos.

- Shorter videos (under 15-30 seconds) are great for getting your video in content and share quickly in building it spread, especially when you first start out. This will help with research and getting more views.
- Longer videos are great for building trust, skills of knowledge

## 10 TIPS FOR BUILDING A LEARNING COMMUNITY ON

*TikTok*

Adapted from my E-Book  
"Teaching on TikTok:  
A Guide to Growing Your Own Learning Community"  
By Kendall Barger  
@kendallbargerplants

about the app,  
and  
being on camera

- Do not change who you are or try to get followers on the app.
- People will respond to your unique voice, personality, and energy, and you don't have to be young, flashy, or "trendy" or bring people to your space.
- There is nothing too insignificant or small to teach to people. A successful teaching video can absolutely be a sentence long.
- Break larger concepts down into extremely simple or shortened clips. This will help you create more videos out of one general topic AND is a great teaching strategy.
- People learn better when information is chunked.
- It's also not Reels. TikTok as a space online has a distinct presence & feel that Reels lacks as it's part of a larger platform (IG).
- You can post multiple times a day.
- You can have "low-quality made" videos still do extremely well.
- Many "rules" of IG do not apply here.
