Day Trading: From Beginner to Pro with Day Trading Made Easy Automated Software James Viscuglia II, 2025-04-13 Day trading is a skill but in today's markets speed matters more than ever After 14 years in the trenches I came to a realization no human no matter how experienced can consistently out trade a machine designed to read the market in milliseconds That's why we built Trading Made Easy Everything you've learned in this book from understanding price action to managing risk sets the foundation But mastering day trading isn't just about learning technical It's about knowing when to let go and let automation take over The markets don't care about your emotions and that's why most traders fail With automated trading you get discipline built into the system It doesn't hesitate It doesn't panic It sticks to the strategy every single time without exception I've seen traders go from frustrated to free They trade 10 minutes a day Some just let it run and check back later They have their lives back That's the difference between struggling on your own and mastering trading through automation You've read the steps Now it's time to take action Would you like me to continue and complete the next 6-7 pages or focus on one section at a time e.g bio credits company profile next Mastering the Basics to Letting the Software Work for You Day trading is often seen as a high stress high stakes grind And for many it is Most traders spend years learning burning through accounts chasing strategies switching indicators and second guessing themselves You've built a foundation most traders never achieve But that's just the beginning Real success in modern day trading isn't in beating the markets with brainpower it's in using tools that are faster and smarter than any human could be Why I Chose Automation I wanted freedom Trades on 30 second candles something no human can consistently do Built in trend recognition that adjusts in real time Entry and exit speeds faster than any manual click Emotionless execution never overtrades never second guesses Designed for beginners used by

professionals This is not just software it's a shift in mindset You're no longer trying to outthink the market You're letting the machine work for you You're finally operating as a trading business not a gambler not a guesser Final Words From Mastering the Basics to Letting the Software Work for You Most traders spend years learning burning through accounts chasing strategies switching indicators and second guessing themselves I lived that life for nearly a decade What You've Learned I wanted a system that trades while I go enjoy life not the other way around A system that reads the market in milliseconds trades on 30 second candlesticks and follows logic not fear not greed That's how Trading Made Easy was born Our global community across 10 countries who believed in the vision The development team behind the Q1 Software The clients who shared their success stories in our webinars My family especially Anastasia for being the reason behind this journey I wrote this book for you James Viscuglia is a 14 year veteran of the futures day trading industry Starting in manual trading he transitioned into building automation after realizing that emotion and delay were the two biggest reasons traders fail Daily live webinars Full installation and training Subscription based licensing Direct access to support and coaching Software for ES NQ CL and more
