Deadalus Bioethics And Beyond Fall 1999 Vol 128 No 4:

The Ethics of Biotechnology Gaymon Bennett, 2022-01-26 The essays collected in this volume provide students of ethics with essential tools for making sense of emerging biotechnical capacities and the turbulent power relations these capacities are bringing into the world Unlike previous reference works in bioethics which focus on specific domains of human activity such as genetic research or biomedicine this volume directs students attention to the underlying cultural and institutional forces that shape how biotechnologists approach the world and teaches students how to weigh the ethical significance of these forces This innovative approach to the ethics of biotechnology detailed in the volume s introduction equips students to track the dynamic interplay of biology digital technology and the high tech economy which is remaking the living world today and the human relation to it

Testimony After Catastrophe Stevan Weine, 2006-08-14 Survivors of political violence give testimonies in families and communities trials and truth commissions religious institutions psychotherapies newspapers documentaries artworks and even in solitude Through spoken written and visual images survivors testimonies tell stories that may change history politics and life itself In this book Stevan Weine a psychiatrist and scholar in the field of mental health and human rights focuses on the testimony of survivors for the hope it might hold hope expressed by survivors again and again that no matter what horrors or humiliations they have endured some good might come of their stories It is through the thinking of Mikhail Bakhtin and his approach to narrative that Weine seeks to read the testimony of survivors of political violence from four different twentieth century historical nightmares and to read them as the stories they are meant to be fully conveying their legitimacy resourcefulness power and finally hope A deeply involving compassionate occasionally confrontational blend of practical hands on experience and dialogic theory emerging from the author s decade long work in Europe and Chicago with survivors of the Balkan wars this book is committed to the proposition that efforts to use testimony to address the consequences of political violence can be strengthened though by no means guaranteed if they are based on a fuller acknowledgment of the personal and ethical elements embodied in the narrative essence of testimony These elements are what Testimony after Catastrophe seeks to reveal

Methods in Medical Ethics Jeremy Sugarman, Daniel P. Sulmasy, 2001 Medical ethics draws upon methods from a wide array of disciplines including anthropology economics epidemiology health services research history law medicine nursing philosophy psychology sociology and theology In this first book to systematically examine critique and challenge some of these disciplines and their methods in light of their influence on medical ethics leading scholars present particular methods that have played significant roles in the field The methods addressed include philosophy religion and theology professional codes law casuistry history qualitative research ethnography quantitative surveys experimental methods and economics and decision science Reviewing each they provide descriptions of techniques critiques and notes on resources and training Physician assisted suicide and euthanasia are used as an illustration of the richness of multidisciplinary work applied to individual issues Similarly genetic testing is

used as an example of how multiple descriptive methods may privilege certain findings *Methods in Medical Ethics* is a valuable resource for scholars teachers editors and students in any of the disciplines that have contributed to the field As a textbook and reference for graduate students and scholars in medical ethics it offers a rich understanding of the complexities of both moral questions and their answers *Possessed by the Virgin* Kristin C. Bloomer,2018 *Possessed by the Virgin* is an ethnographic account of three Roman Catholic women in Tamil Nadu south India who claim to be possessed by Mary the mother of Jesus The author follows the lives of these women over many years investigating questions about gender social power agency and authenticity *Absolutely Essential* Jonathan D. Moreno,2025-09-16 What the end of the post World War II global political system means for bioethics and beyond In *Absolutely Essential* Jonathan Moreno explores the field of bioethics as both a creature and a key element of the post World War II rules based order According to this order international relations are to be organized according to principles of open markets liberal democracy and multilateral organizations Drawing on the author s four decades of experience in the field the book raises key questions about the future of bioethics in a changed world order while also theorizing new ways to think about bioethics after the COVID 19 pandemic and the reordering of global alliances For bioethicists this book will contextualize the field in an entirely new light while readers unfamiliar with bioethics will appreciate that this seemingly esoteric field is in fact a paradigmatic creation of the global system now undergoing sweeping change *Current Contents.
