aren't ready. And sometimes it's just because the founder or founding team has a blind spot or two. Not only do these hidden blind spots ensure their failure, but in many cases, with better planning or a greater, more holistic understanding of the market, the blind spot can be overcome. Or, better yet, the founder can realize that their idea is doomed from the start and consider other, better options to solve the problem they are attacking. The goal of this book is to help founders and their teams identify blind spots and avoid the most common pitfalls of starting a digital health company. Having spent time with founders, VC companies, and most importantly, prospective digital health startups, patterns have emerged regarding those startups that are successful and those that die an often slow and painful death. While not a recipe for guaranteed success, having a guidebook of sorts can help navigate the perils associated with building a digital health company and can very likely improve the odds of success. The book will go through the typical life cycle of an early stage company, from ideation to the first few customer deals, and highlight best practices for tackling the challenges at each stage, including: What problem are you trying to solve? And why are you trying to solve this problem? Who will help you build the solution and company? How will you build the solution? How will you pitch your company? How will you sell your solution? And what does success look like to you, your stakeholders, and your customers?

NursePreneurs Catie Harris, PhD, MBA, RN. The NursePreneur Mentor, 2024-08-27. NursePreneurs delivers a compelling guide by veteran nurse Catie Harris that challenges the norms in the nursing profession. This invaluable resource resonates with nurses who are tired of grueling schedules, family sacrifices, and escalating workplace pressures while seeing less experienced colleagues earn more. Catie discovered an alternative path that lets nurses leverage their skills beyond traditional hospital settings. In NursePreneurs, she presents a variety of viable healthcare-based small business ideas ranging from IV hydration clinics and med spas to concierge nursing and healthcare consulting. NursePreneurs is unique as it offers a replicable blueprint for entrepreneurial success, specifically tailored for medical professionals. It fills the void for a growing number of nurses seeking autonomy, higher income, and a meaningful way to use their passion for healthcare. It's a roadmap to balance prosperity and career satisfaction, replacing the grind of hospital nursing with the rewards of entrepreneurship.

Emerging Technologies, Novel Crimes, and Security Hedi Nasheri, 2024-12-30. This book provides a holistic overview of the complexities of modern technological advances and their implications for crime and security. It examines the societal dilemmas that accompany these technologies, their strategic impact on geopolitics, governments, business, and civil society. The increasingly interconnected world gives rise to novel crimes and creates a new, complex set of threats. Understanding this landscape is essential to strategizing for the prevention, protection, mitigation, and risk assessment of technology-related crime. Practical and approachable, this book builds knowledge and awareness of the impact of emerging technologies on crime and security among professionals, students, academicians, researchers, and policymakers.
