EMOOCs 2023 Christoph Meinel, Stefanie Schweiger, Thomas Staubitz, Robert Conrad, Carlos Alario Hoyos, Martin Ebner, Susanna Sancassani, Agnieszka Żur, Christian Friedl, Sherif Halawa, Dilrukshi Gamage, Jeffrey Cross, May Kristine Jonson Carlon, Yves Deville, Michael Gaebel, Carlos Delgado Kloos, Karen von Schmieden, 2023-11-14 From June 14 to June 16 2023 Hasso Plattner Institute Potsdam hosted the eighth European MOOC Stakeholder Summit EMOOCs 2023 The pandemic is fortunately over It has once again shown how important digital education is How well prepared a country was could be seen in our schools universities and companies In different countries the problems manifested themselves differently The measures and approaches to solving the problems varied accordingly Digital education whether micro credentials MOOCs blended learning formats or other e learning tools received a major boost EMOOCs 2023 focusses on the effects of this emergency situation How has it affected the development and delivery of MOOCs and other e learning offerings all over Europe Which projects can serve as models for successful digital learning and teaching Which roles can MOOCs and micro credentials bear in the current business transformation Is there a backlash to the routine we knew from pre Corona times Or have many things become firmly established in the meantime e g remote work hybrid conferences etc Furthermore EMOOCs

2023 has a closer look at the development and formalization of digital learning Micro credentials are just the starting point Further steps in this direction would be complete online study programs or full online universities Another main topic is the networking of learning offers and the standardization of formats and metadata Examples of fruitful cooperations are the MOOChub the European MOOC Consortium and the Common Micro Credential Framework The learnings derived from practical experience and research are explored in EMOOCs 2023 in four tracks and additional workshops covering various aspects of this field In this publication we present papers from the conference s Research Experience Track the Business Track and the International Track *Decoding Generative AI* Farabi Shayor, Kelina Lowther-Harris, Kirthana

Srinivasan, Anoushka Samanta, 2024-04-16 The emergence of Generative AI has marked a significant turning point heralding a new age of innovation and intellectual exploration Much like a compelling narrative this advancement in artificial intelligence has captivated the global community and ushered in an unprecedented surge of innovation For many years the subtle hum of AI has been interconnected into the fabric of our society Devices such as Echo Alexa and Google Home once considered avant garde are now seamlessly integrated into our homes and vehicles becoming essential navigators in our daily journeys However this new phase of AI evolution is distinct Capable of enhanced ability these new generative AI systems could easily discern the intuitive needs of their end users With a mere command or a simple image generative AI systems can draft comprehensive reports write legal documents or produce intricate visual masterpieces Their proficiency can also be extended to routine and mundane tasks smoothly managing administrative duties writing correspondences and providing invaluable support in professional settings Although these foundation models require a vast amount of training data and billions of parameters to be effective the outcomes are equally remarkable Technology companies and investors recognising the potential embarked on an investment spree steering a new era for the development of specialised models such as Microsoft CoPilot Midjourney ChatGPT and so on As these technology companies continue to improve their language models each version seems to be more refined than its predecessor Foremost among these are the Large Language Models LLMs emblematic of this AI renaissance Now with voice activated capabilities generative AIs have become capable of much more in the relatively short span of their existence With the integration of voice activated features combined with their capabilities to speak like a human being their potential continues to grow exponentially They aren t labelled as chatbots anymore these AI systems signify a technological paradigm shift reshaping humanity s understanding of technology automation and creative expression However with such shift comes the imperative need for governance and control The unchecked expansion of AI poses unmitigated challenges In reality these advanced AIs have the potential to be transformative and destructive parallelly Thus it is necessary to establish guidelines and oversight to ensure the ethical deployment of such systems which this book focuses on As society stands at this transformative crossroads parallels are being drawn to the imaginative world of fiction The concept of Jarvis AI from the fictitious world appears provocatively close

to becoming a reality The epoch of generative AI has truly dawned promising a future where technological prowess and human aspiration unite
