Steenhuis,1993      **In de voetsporen van Jacob van Maerlant** Raoul Bauer,2002      **History of the Low Countries** J. C. H. Blom,E. Lamberts,2006-06 The history of the smaller European countries is rather neglected in the teaching of European history at university level We are therefore pleased to announce the publication of the first comprehensive history of the Low Countries in English from Roman Times to the present Remaining politically and culturally fragmented with its inhabitants speaking Dutch French Frisian and German the Low Countries offer a fascinating picture of European history en miniature For historical reasons parts of northern France and western Germany also have to be included in the Low Countries a term that must remain both broad and fluid a convenient label for a region which has seldom if ever composed a unified whole In earlier ages it as even more difficult to the region set parameters again reflecting Europe as a whole when tribes and kingdoms stretched across expanses not limited to the present states of Belgium Luxembourg and the Netherlands Nevertheless its parts did demonstrate many common traits and similar developments that differentiated them from surrounding countries and lent them a distinct character Internationally the region often served both as a mediator for and a buffer to the surrounding great powers France Britain and Germany an important role still played today as Belgium and the Netherlands have increasingly become involved in the broader process of European integration in which they often share the

same interest and follow parallel policies This highly illustrated volume serves as an ideal introduction to the rich history of the Low Countries for students and the generally interested reader alike **De ridderromantiek der Franse en Duitse middeleeuwen** Valdemar Vedel,1919 Religion, Culture, and Mentalities in the Medieval Low Countries Ludovicus Milis,2005 Ludo Mills graduated from Ghent University in 1961 as the last student of Francois Louis Ganshof who in the years after Henri Pirenne s retirement was the most prominent representative of the famous Ghent School of medieval history This collection contains eleven essays published between 1969 and 1990 Most of them appeared in Dutch or French and have now been translated into English two essays previously published in English were newly edited All provide unique insight in the major themes of Milis s work the religious history of the Low Countries during the early and high Middle Ages as well as the problem of religious conversion and persuasion the rise of regular canons in the eleventh and twelfth centuries also the subject of his doctoral dissertation on the order of Arrouaise published in 1969 the uses of power and ideology and the history of French Flanders All bear witness to Milis s inspiring ability to ask original probing questions and to write historical syntheses accessible to a wide audience BOOK JACKET *Dichterschap en profetie: literatuur in de middeleeuwen* Rudolf van Reest,1953 **Geschiedenis der patristische en middeleeuwse wijsbegeerte** Ferdinand Sassen,1950 Dutch review of church history ,1993 **De visie op Troje van de westerse middeleeuwse geschiedschrijvers tot 1160** Adolf Emile Cohen,1941 **The Church in the Later Middle Ages** Norman Tanner,2008-09-15 The Later Middle Ages 1300 1500 CE have often been characterised as a period of decline for Christendom The era seems to sit uncomfortably between the remarkable achievements of church and society in the twelfth and thirteenth centuries and the revivals of the Reformation and Counter Reformation in the sixteenth century The period has even been called a Babylonian Captivity for the Church echoing the struggles of the Israelites in exile and reflecting the transferral of the papacy to Avignon in 1309 Norman Tanner challenges this negative view examining a vibrant period of ecclesiastical history in its own right rather than just through the lenses of the centuries that preceded and succeeded it He discusses the trials of the age in the form of the papal schism between 1378 1417 the heresies of Cathars Lollards and Hussites the Hundred Years War and the terror of the Black Death Yet he focuses too on the great ecumenical councils the flowering of intellectual life in the Renaissance and the extraordinarily rich spirituality of mystics like Julian of Norwich Catherine of Siena and Meister Eckhart What comes to light in this lively and readable volume is that the later medieval age was actually one of extraordinary achievement for the Church of deepening and enrichment as well as of schism and conflict Bijdragen tot de geschiedenis ,1992 Algemene literatuur geschiedenis: De middeleeuwen.
