Collaborative Methods Kaylan C. Schwarz, Claudia Mitchell, Rebekah Hutten, 2025-10-16 Collaborative Methods explores the intersections between participatory data analysis and feminist research traditions that complement each other but are rarely examined together The chapters highlight two key approaches methods where participants help analyze the data they contributed to and non hierarchical collaborative methods involving research teams Contributors demonstrate how to choose an approach that best aligns with one's research questions study context and participant availability and interest They also encourage scholars to thoroughly describe their methodological designs decision points and processes rather than keeping the focus only on their findings Through a feminist lens the authors present a range of perspectives resisting a singular approach Instead they engage with the fluid and contested nature of feminist research each author drawing on different feminist traditions to shape their work The volume encourages scholars to think critically about the co production of knowledge making it an essential resource for social science researchers and students who are invested in feminist and participatory methodologies Contributors Nesa Bandarchian Rashti Emma C Cognet L Rebeca Esquivel Jessica Fields Sarah Flicker Geetanjali Gill Jillian Grace Goyeau Nadha Hassen Rebekah Hutten Terra L ger Goodes Meegwun Logan Catherine Malboeuf Hurtubise Mitchell McLarnon Claudia Mitchell Milka Nyariro Kathryn Kendal Ryan Kaylan C Schwarz Grace Skahan Catherine Vanner Angelina Weenie Dawn Wiseman 4theRecord Team
