Africa's Development in the Twenty-first Century Kwadwo Konadu-Agyemang,Martin Kwamina Panford,2006 Having been under colonial rule for the first half of the century by 1965 all but a handful of African countries had regained their independence and were poised to take off into an era of development However Africa now suffers from the most acute form of underdevelopment anywhere in the world Bringing together a broad selection of case studies covering a wide range of key issues this volume provides a multidisciplinary exploration of Africa s development opportunities and challenges into the twenty first century *Social, Ethical and Policy Implications of Information Technology* Linda L. Brennan,Victoria Elizabeth Johnson,2004-01-01 Legal and ethical issues have become a standard part of engineering and business schools curricula This has not been the case for computer science or management information systems programs although there has been increasing emphasis on the social skills of these students This leaves a frightening void in their professional development Information systems pose unique social challenges especially for technical professionals who have been taught to think in terms of logic structures and flows *Social Ethical and Policy Implications of Information Technology* focuses on the human impact of information systems including ethical challenges social implications legal issues and unintended costs and consequences
