witnessing a major change in the way we look at money Having reached the middle income status as a country a vast section of the youth is now aspiring for higher financial goals This large population is breaking away from its parents in almost every way including financially But the new generation of Indians entering the workforce demand more knowledge on their investments They constantly grapple with complicated questions surrounding money What do they do with their money How do they plan for their future Most of the time they get bad advice Mutual funds have not really delivered meaningful returns stock selection is extremely complicated and sophisticated investments like PMSs AIFs etc are only for the wealthy This book tries to help these young investors by offering them a framework they can use to create wealth in the long run Using the wisdom and experience of Indian s top personal finance professionals the book answers critical questions such as Should I rent a house or buy a house Passive investing versus active investing Stocks versus mutual funds Debt funds or FDs And finally crypto or no crypto **Self-Regulation and Co-regulation as Governance Solutions** José Sixto-García, Bella

Palomo, Carmen Peñafiel, 2024-12-27 The governance of media infrastructures in the European Union has always been a particularly complex affair A notable factor contributing to this complexity is a framework that features a dual funding model where public and private media exist side by side Increasing concerns over the politicization of the media as well as the lack of transparency concerning their ownership have made things even more complex The European Union s Media Pluralism Monitor has highlighted the weaknesses of information pluralism in a context where researchers are compelled to study the role that artificial intelligence automation is playing in both the creation of content and the development of spyware technologies for the surveillance of journalists In response to these concerns the European Commission has proposed the

adoption of a new set of rules known as the Media Freedom Act the chief purpose of which is to protect media pluralism and independence within the bloc The Act raises a number of important questions however For example it is not prima facie clear whether media independence can or should be regulated some might even go so far as to argue that doing so would be a plain contradiction in terms and just how much pluralism there should be within a committee whose job is to evaluate information pluralism

Instagram Secrets Alexander Vinci, 2021-09-04 Do you want to know how Instagram really works and what mindset you must have to succeed in this platform If you just starting reading through this guide and are thinking that your business isn't an eCommerce business and so Instagram isn't the place for you think again Remember the key proposition that Instagram brings is visualization Consider these examples 1 You're a real estate agent and want to highlight the newest mountain home that you have on the market 2 You are a world class hospital that just released a new mother's ward with beautiful birthing and stay suites with a spa like feel 3 You're a restaurant owner and want to highlight your savory and mouthwatering specials each week The above examples are all situations where nothing is actually being transacted online but the business is building brand awareness and drumming up interest so that the consumer will visit their website or pick up the phone to learn more The mysterious Instagram algorithm While we'll never know exactly how Instagram has weighted the various data points that they put into their algorithm we do know that Instagram's back end technology now focuses on relevancy serving up the posts that are most likely to relate to certain users based on their activity on the site So every time a user clicks through a post or spends a certain amount of time looking at a certain influencer Instagram is capturing that data in some way and building it into their engine to ensure that posts that users won't care about are less likely to show up in their feed We do know however that Instagram is looking at the following Timely content This is all about recency meaning if a user hasn't logged in for a while they won't have to scroll through outdated and no longer relevant posts They'll be shown timely content that matters to them Interest This is really the secret sauce as Instagram is paying attention and will serve content that it believes the user will be interested in Relationships Instagram knows what photos users tag and where they comment So if a user has interacted in some way with certain brands in the past they are far more likely to be served content from that brand or similar brands in the future For marketers this is a great thing It means that as Instagram learns more about your brand your posts and advertisements are more likely to get in front of your niche or target audience A few notes about Instagram Shopping With the release of Instagram Shopping in late 2016 Instagram literally turned their platform into an online marketplace While it is still a common practice to include website links to your business site and even to a product page now it is possible to allow the customer to transact directly on the Instagram platform For businesses that want to enable the Shopping capability they need to meet the following requirements You must have an Instagram business profile That business profile needs to be connected to a Facebook catalog Your company's registered headquarters location must be located in one of the Instagram approved countries Items for sale must be physical goods that comply with the trading guideline and terms of use set forth by Instagram As this Instagram Marketing Guide is intended as a resource for those
