

# Productivity Ideas for Small Businesses

Life has become increasingly full of distractions, which, unfortunately, can leak into our work lives. This can lead to a dip in productivity which could be costing your business a lot of money in lost time. Here are a few ways you and your employees can gain back that lost time by incorporating some time saving techniques.

## Managing Your Inbox:

Stop responding to e-mails as they come into your inbox! Set aside a few moments throughout the day for when you have the time and energy to get your e-mailing done instead.

## Social Media Management:

Using management sites, like Hootsuite, can let you schedule posts in advance which will free up time for other duties. Like e-mails, if you receive any messages, then set aside the time to address those when you're not busy.

## Ergonomic Productivity:

Sitting down for long periods of time? It's important to set reminders throughout the day to get up, stretch, and walk around. Doing so can put a little energy boost back into your work production.

## Starting Your Day Right:

Don't wait until the next day to start preparing for it. Before leaving work for the day, plan tomorrow's schedule in advance while your thoughts are fresh.
