After college I did what you're supposed to do. I got a job. The problem was almost immediately I found myself looking for a way out. It wasn't that I hated the work or my coworkers but it just wasn't what I wanted to do with my life. The thought of spending my next 30 years there was terrifying. So evenings and weekends I turned my attention online. I'd been dabbling with building rudimentary websites, learning online advertising channels and even running my own small marketing campaigns for other companies' products to test the waters. And that's what The Side Hustle is about: finding a low risk way to make more money. Most entrepreneurship books assume you have limitless time and limitless startup capital but I know from talking to thousands of side hustlers that's simply not the reality. I started small and lean but steadily built up my side hustle until I could say good bye to corporate work. You can do it too. I'll show you how. What's Inside. If you're looking for a get rich quick scheme or the secret to overnight success you won't find it here. But what you will find are the Big 3 side hustle business models you can take action on right away. I've interviewed hundreds of profitable side hustlers on The Side Hustle. Show to figure out how their businesses work, how they make money and most importantly how you can replicate their success. In this book you'll meet these real world side hustlers who built and sustained businesses they care about. They faced the same fears and uncertainties you're wrestling with but made something happen. Now it's your turn. What are you waiting for? The timing will never be perfect.
