Online Meetings that Matter Pilar Orti, As an increasing number of organisations enable their employees to work from anywhere and as the number of distributed companies grows online meetings are part of business as usual While the trend in the office space has been to cut down on meetings to increase productivity remote teams can benefit from a healthy meeting rhythm During online meetings we can celebrate our humanity and spontaneity and we can iron out those misunderstandings that creep in when our communication is restricted to the written word ONLINE MEETINGS THAT MATTER is a guide for managers of remote teams and those introducing online collaborations practices With a focus on strengthening the relationships between team members and using technology to support your team s work this book covers a range of ways in which members of remote teams can gather in the online space as well as how individuals can prepare to make the most out of their valuable time together This is a practical book that will help managers and their teams reconsider not just how they run their meetings but their whole approach to online collaboration Drawing on the wealth of many years of experience in the remote space Pilar Orti the founder of Virtual Not Distant distills her knowledge of running online meetings and coaching managers to do the same in this actionable and straightforward guide Still wondering if this book is for you This book is for you if you are the manager or leader of a non colocated team where working schedules overlap for several hours ideally by no less than four You might be making the transition to flexible working or agile working and finding that your usual meeting schedule and formats are no longer possible because you cannot gather everyone together in the same room You might be worried also about people s work becoming misaligned losing team spirit and people feeling disconnected from the work the

organisation and from one another so you've moved some of your team meetings online. You might be a new manager getting ready for your first online team meeting; you might be an aspiring manager discovering what your job might entail. Or maybe you are a team member who understands the potential of online meetings and wants to make sure your team makes the most out of them. You might even be a meeting facilitator or a coach looking for ways to help teams and managers take ownership of their online meetings. And if you are someone who organises meetings for online communities, you will find aspects of this book relevant too. Finally, this book is for you if your team both needs and wants to gather together online. Some teams are happy to communicate on a one-to-one basis or through text, but if you think gathering together online as a team will help you to advance the work and create collaborative relationships, this book is for you.

**Highly Effective Manager in a Minute**

Gajanan Shirke, The book includes empirical research and case studies embracing human capital, relational capital, and structural capital in context to Hospitality and service sectors. From a learning and managerial perspective, the book will identify effective managerial practices in hospitality and varied service sectors significant for sustaining business performance and competitive advantage.

**Managerial Skills** book covers Role. Many Managers have been playing the Managerial role for a long time but are really not aware of what's the difference between their role, that of a leader, and that of a Supervisor. The awareness that such sessions create makes some of them realize that they land up executing when they should be managing the executioners.

**Interpersonal Style** We all behave in a specific manner based on our personality. This behavior may help or impede our interpersonal relationships. Our Managerial Skills Training sessions are a huge eye opener in this area and give the participants direction into what they need to work on. It also makes them aware of the behavioral styles of others and how they may come across to the people around them.

Apart from this, it also equips them with a tried and tested tool on handling conflict effectively.

**Motivation** Keeping your team motivated is prime for any Manager. However, Managers sometimes lose track of what they need to do to provide that motivation to different team members. After all, what motivates one may not motivate the other.

**Time Management** Ensuring that we get the most out of our day and also help our team members do the same is again very important. Our Managerial Skills Training throws light on aspects of planning and prioritization that can help Managers improve productivity.

**Goal Setting** Imagine having a team where the members are headed in different directions. That's really not going to help you fulfill your team or organizational goals. Therefore, defining these goals and defining them smartly for team members to follow is something that we teach during these sessions.
