Hyperautomation in Business and Society Darwish, Dina, 2024-07-17. The demand for efficiency and intelligent decision making has become paramount, prompting a crucial examination of the limitations of traditional automation. Organizations find themselves at a crossroads, searching for a transformative solution that transcends conventional approaches. Enter the era of Hyperautomation, an innovative paradigm that goes beyond simple automation by integrating artificial intelligence, robotic process automation, and advanced techniques such as cognitive computing and data mining. *Hyperautomation in Business and Society* is a comprehensive exploration of how Hyperautomation addresses the complexities of modern challenges, offering a compelling solution to propel businesses and society into a new era of efficiency and intelligent decision making. This book sets out to achieve a dual purpose: to enlighten and to guide. Starting with a breakdown of intelligent automation, the book progresses to dissect the latest IA technologies, platforms, and the intricate ways in which it optimizes workflows. Spanning diverse applications across sectors such as logistics, marketing, finance, and customer care, it paints a vivid picture of IA's transformative influence. Notably, it addresses the challenges faced by IA implementation, offering a nuanced exploration of real-world applications and their impact on businesses. Geared towards undergraduate and postgraduate students, researchers, and practitioners, this book is a compass for those navigating the ever-changing landscape of intelligent automation.

*The Implications of new Technology, particularly Artificial intelligence (AI) for International Politics* Malam Wasai, 2023-09-18. Submitted Assignment from the year 2023 in the subject Politics General and Theories of International Politics. Language: English. Abstract: Greater scrutiny is necessary because AI will have a significant impact on international relations, such as putting new topics on the international agenda, challenging geostrategic relations, serving as a tool for diplomats and negotiators, and creating new opportunities and concerns about protecting human rights. Scholars and diplomats have found it helpful to think about the different things that affect international relations by breaking them down into three levels of analysis: individual, state, and international. State-level analysis examines the foreign policy behavior of states in terms of state characteristics. For example, some scholars say that all democracies behave a certain way; they don't fight with other democracies. Artificial intelligence impact governance. As AI continues to evolve and permeate various aspects of our lives, its implications for AI and how it impacts businesses. AI artificial intelligence refers to machines that can perceive, intelligence, synthesize, and infer information. It is the science and engineering of intelligent machines that can mimic human intelligence to perform tasks and then on the information they collect, improve themselves. Based AI is designed to significantly enhance human capabilities and contributions, making it a valuable business asset.
