Routledge Handbook of Technological Advances in Researching Language Learning Karim Sadeghi, 2024-11-29

The Routledge Handbook of Technological Advances in Researching Language Learning is the first volume to bring together the extant scholarship on the nature and role of digital technology in conducting second language research. The Handbook showcases technological advances including issues and considerations affecting research conduction in second language education. The contributions focus on the role of digital technology in researching second language education, second language acquisition, and applied linguistics. Contributions by both seasoned and junior scholars feature empirical studies and methodological and/or theoretical discussions of technological tools used or tools that can be used for conducting research into various aspects of second language learning and acquisition. This book will primarily appeal to academic specialists, practitioners, and professionals in the field of applied linguistics and second language education. The book will also be informative for scholars and professionals in disciplines such as educational technology and TESOL.
