Do you feel trapped in a job you hate? Have you repeatedly switched jobs only to find yourself in a new place but with the same old problems? Does the life you dream of always seem to be just out of reach? Our career choices are driven by a multitude of factors. But what if we've been consistently programmed to make the wrong choices? What if those choices eventually start to impact on our health, relationships, motivation, productivity, and even on the quality of our sleep? An estimated 36-50 percent of us are thought to have introverted personality characteristics. For this significant proportion of the population, the pressure to conform to an extroverted world can be all encompassing. From early years to the schoolroom to the world of work, introverts' inner preferences are overridden in favour of outward acceptance within teams or groups. But on the inside, this imbalance between inner preferences and outward actions can end up taking those with introverted characteristics down a path of energy draining life traps. So how do we change course for the better? Rebecca Healey left a decade long career as a city based management accountant in her early thirties. She went on to train in medicine, qualifying as a doctor in 2016. A self proclaimed introvert, Rebecca was inspired to write by the recurring challenges experienced across two distinctly different industries and the strategies she adopted to eventually overcome them. Using her own experience, she has created 10 landmark steps to set you up for career change success. Following these steps will equip you with the tools you need to carve out your dream career without sacrificing your health or identity in the process. In *The Art of Career Change for Introverts*, you will learn how to implement tips to improve your situation straight away. Discover

ABOUT THE BOOK We have the power to change the world with our ideas and we have the power to change the lives of others through our quiet leadership and steadfast approach Introverts are idea people We are great listeners and friends and form meaningful relationships in our personal and professional lives That's the good news The flip side is that we often struggle with two additional words invisible and interrupted We attempt to outpace our work peers with diligence optimism and commitment And we are

somewhat surprised to see coworkers earning praise for the visible implementation step of a plan for which we seeded the initial idea gaining recognition for leadership of a team where we contributed most or all of the behind the scenes work and moving up the organization while we are acknowledged in our supporting role

Supporting Really The Introvert s Guide to Success in Business and Leadership offers author Lisa Petrilli s experience and advice for overcoming some of the obstacles faced by introverts in networking interviewing leading and excelling in leadership positions Lisa discusses how introverted and extroverted leaders are both great in leadership and in business however introverts may struggle to reach the executive level In part introverts are less comfortable seeking the visibility required for company wide recognition In part discomfort with networking effectively and an uneasiness in asking for new opportunities creates fewer opportunities for recognition
