**The Future of Human Resource Management in a Multigenerational Workforce** Vidhi Tyagi, Shikha Aggarwal, Pallavi Tyagi, 2025-10-06 As organizations navigate an increasingly complex and fast evolving business landscape The Future of Human Resource Management in a Multigenerational Workforce provides HR professionals researchers and business leaders with a comprehensive guide to understanding and managing the workforce of tomorrow Communication in Japan and the United States William B. Gudykunst, 1993-01-01 This book is the first to provide a summary of the state of knowledge about communication in Japan and the United States Included is an overview of the major approaches used in the study of communication in these two countries an overview of the major cultural factors influencing communication a description of the sociolinguistic differences between English and Japanese an examination of Japanese American communication as a function of the cultural values learned from the two cultures and a summary of research comparing interpersonal research in Japan and the United States as well as research on intercultural communication between Japanese and North Americans The book also examines communication in organizational contexts in Japan and the United States and describes differences in mass communication between the two cultures **Hybridising Housing Organisations** David Mullins, Darinka Czischke, Gerard Van Bortel, 2016-04-08 Social housing has long been delivered through mixed economy mechanisms but there has been little focus in housing studies on what this means for housing organisations themselves This book presents recent international research applying concepts of social enterprise and hybridity to illuminate organisational behaviour in the housing sector It addresses critiques of the explanatory value of these concepts by exploring their underlying meanings and their application to diverse case studies worldwide The concepts are found to be most useful where they inform dynamic analysis of hybridisation and identify underlying change mechanisms rather than simply providing static descriptions of hybridity Various chapters in the book show how analysis can be enriched by drawing on institutional theory to develop concepts such as competing organisational logics trade offs between social and commercial goals and resource transfers The Book also looks at policy as a driver for hybridisation and to the regulatory challenges for policy systems that have come to rely on hybrid forms of delivery A research agenda is proposed building on these conceptual frameworks to develop systematic approaches to data collection and analysis to enable clearer and more consistent meanings to emerge This book was published as a special issue of Housing Studies *Journal of the House of Representatives of the United States* United States.
