Kahn, 2022-04-26 A leading urban economist s hopeful study of how shifts to remote work can change all of our lives for the better As COVID 19 descended upon the country in 2020 millions of American office workers transitioned to working from home to reduce risk of infection and prevent spread of the virus In the aftermath of this shift a significant number of workers remain at least partially remote It is clear that this massive experiment we were forced to run will have long term consequences changing the shape of our personal and work lives as well as the urban landscape around us How will the rise of telecommuting affect workers quality of life the profitability of firms and the economic geography of our cities and suburbs Going Remote addresses the uncertainties and possibilities of this moment In Going Remote urban economist Matthew E Kahn takes readers on a journey through the new remote work economy revealing how people will configure their lives when they have more freedom to choose where they work and how they live Melding ideas from labor economics family economics the theory of the firm and urban economics Kahn paints a realistic picture of the future for workers firms and urban areas big and small As Kahn shows the rise of remote work presents especially valuable opportunities for flexibility and equity in the lives of women minorities and young people and even for those whose jobs do not allow them to work from home Uncovering key implications for our quality of life Going Remote demonstrates how the rise of remote work can significantly improve the standard of living for millions of people by expanding personal freedom changing the arc of how we live work and play *Global Telecommunications Policies* Meheroo Jussawalla, 1993-07-30 Regulatory change has come to characterize global telecommunications in the 1990s In this timely book contributors of recognized distinction and knowledge provide a range of perspectives and discuss a variety of

approaches to telecommunications issues providing broad coverage of telecommunications regulatory policies In its analysis of public policies for deregulating telecommunications services the work emphasizes the business strategy implications entailed by each public policy The volume argues that globalization and interdependence are forcing governments to adjust their policies that technology often eclipses voluntary government policies and that all multinational corporations through their investment strategies and R D efforts are important actors in regulatory policy as are national and international agencies

States of Neglect William Kleinknecht, 2023-02-21 As America continues down its path of polarization a celebrated journalist tells us the deep story of the red state blue state divide In the wake of Trump's presidency Republican led states have joined in an alarming assault on our democratic system But the drift toward authoritarianism in red states has far deeper roots We now have a country where tens of millions of people live under regimes that have spent years starving education and health care empowering polluters engaging in voter suppression and neglecting their citizens well being in the interest of cutting taxes for the wealthy In *States of Neglect* journalist William Kleinknecht surveys the landscape of neglect in states including Texas Florida and Arizona through the experiences of a rich cast of characters He visits environmental dead zones in the Texas Gulf region He investigates Arizona's abandonment of public education and its corrupt charter school industry He shows how Mississippi's denuded health care system has made the Magnolia State the sickest in the nation And he explains how North Carolina allows its people to sink into poverty while catering to the needs of corporations As a postscript Kleinknecht proposes how progressive states on either coast might join in a compact of progressive federalism that uses their superior economic and cultural resources to counter the influence of the far right

Progress Towards the Knowledge Driven Economy Great Britain. Parliament. House of Commons. Trade and Industry Committee, 2005 The 1998 White Paper *Our competitive future building the knowledge based economy* CM 4176 ISBN 0101417624 proposed a ten year programme to enable the UK to close the productivity gap by exploiting the potential benefits of a modern knowledge driven economy More than six years on this report is a review of the

progress that has been made The topics covered include UK performance since 1998 the development of new products processes and services science and knowledge research bases knowledge transfer and exploitation information and communication technologies competition from low cost economies One of the conclusions is that although the UK s science and knowledge research bases and businesses are collaborating more frequently the performance in knowledge exploitation has been disappointing and the relative position of the UK against the rest of the G7 has remained unchanged Another conclusion is that although there is some evidence that outsourcing abroad can be beneficial the Government should keep the trend under review in case there are strategic losses
