for coding and measuring data W. Paul Vogt,2008 Selecting Research Methods provides advice from prominent social
 scientists concerning the most crucial steps for planning and undertaking meaningful research selecting the methods to be
 used Contributors to the collection address methodological choices in four stages design sampling coding and measurement
 and analysis The volumes provide an integrated approach to methodological choice in two ways First the contributions range
 from the early decisions about design options through the concluding choices about analyzing interpreting and presenting
 results Second the collection is integrated because it addresses the needs of projects that collect qualitative evidence
 quantitative data or both Volume 1 concerns design choice the articles focus on selecting designs that are effective for
 answering research questions and achieving the goals of the researcher Volume 2 is on sampling and includes in addition to
 sampling from populations advice on choosing methods for recruiting informants for interviews selecting sites for participant
 observation and assigning subjects to control and experimental groups Volume 3 reviews options for coding and
 measurement it emphasizes methodological choices that enable researchers to study concepts in ways that enhance the
 reliability and validity of the research Finally the articles included in Volume 4 review the range of choices available among
 methods to analyze results and interpret the meanings of evidence
